## Independent auditors' report

To the Shareholders of  
Qatar Electricity and Water Company Q.P.S.C.

### Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the consolidated financial statements of Qatar Electricity and Water Company Q.P.S.C. (the 'Company') and its subsidiaries (together the 'Group'), which comprise the consolidated statement of financial position as at 31 December 2024, the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the Group's consolidated financial statements in the State of Qatar, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# Independent auditors' report (continued)

## Qatar Electricity and Water Company Q.P.S.C.

### Key Audit Matters (continued)

#### Carrying value of equity-accounted investees

See Note 8 to the consolidated financial statements

The key audit matter	How the matter was addressed in our audit
<p>The Group has investment in several equity accounted investees in and outside Qatar amounting to QAR 8,901 million (2023: OR 8,305 million), which represents 39% of the total assets of the Group as at 31 December 2024 (2023: 36%).</p> <p>The impairment testing of equity-accounted investees in accordance with IAS 36, requires management to make significant estimates and judgments in determining the assumptions to be used to arrive at the recoverable amount. The recoverable amount of the Cash Generating Units (CGUs), which is based on the higher of the value in use or fair value less cost of disposal. The value in use has been derived from discounted forecast cash flows models.</p> <p>These discounted forecast cash flows models use several key assumptions, including estimates of growth in future revenues, operating costs, extension options, capital expenditures, and weighted average cost of capital (discount rate).</p> <p>Accordingly, we have considered above as a key audit matter.</p>	<p>Our audit procedures in this area included, among others:</p> <ul style="list-style-type: none"> <li>• Testing the design and implementation of key controls around the impairment assessment process.</li> <li>• Making inquiries of management regarding the indicators they assessed as possible indicators of impairment for CGUs.</li> <li>• Inspecting management's assessment and considered whether further indicators should have been assessed based on our knowledge of the business, its operating environment, industry knowledge, current market conditions and other information obtained during the audit.</li> <li>• Involving our valuation specialists to assist us in:               <ul style="list-style-type: none"> <li>- evaluating the appropriateness of the discount rates applied, which included comparing the weighted-average cost of capital with industry averages for the relevant markets in which the CGUs operate;</li> <li>- evaluating the appropriateness of the related assumptions applied in discounted forecast cash flows models to key inputs such as growth rate applied in revenues, operating costs, extension options, capital expenditures etc., by comparing these inputs with historical and externally derived data as well as our own assessments based on our knowledge of the client's business and the industry; and</li> <li>- performing our own sensitivity analysis on assumptions applied in discounted forecast cash flows model which included assessing the effect of reasonably possible reductions in growth rates and forecast cash flows, and reasonably possible increase in discount rates to evaluate the impact on the value in use forecast of the CGUs.</li> </ul> </li> <li>• Evaluating the adequacy of the financial statements' disclosures, including disclosures related to key assumptions, judgement, estimates and sensitivities.</li> </ul>

## Independent auditors' report (continued)

### Qatar Electricity and Water Company Q.P.S.C.

#### Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the consolidated financial statements and our auditors' report thereon. Prior to the date of this auditors' report, we obtained the report of the Board of Directors which forms part of the Annual Report, and the remaining sections of the Annual Report are expected to be made available to us after that date. Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Board of Directors for the Consolidated Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

## Independent auditors' report (continued)

### Qatar Electricity and Water Company Q.P.S.C.

#### Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group's consolidated financial statements. We are responsible for the direction, supervision, and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal Requirements

As required by the Qatar Commercial Companies Law No. 11 of 2015, whose certain provisions were subsequently amended by Law No. 8 of 2021 ("amended QCCL"), we also report that:

- i) We have obtained all the information and explanations we considered necessary for the purposes of our audit.
- ii) The Company has maintained proper accounting records and its consolidated financial statements are in agreement therewith.
- iii) We have read the report of the Board of Directors to be included in the Annual Report, and the financial information contained therein is in line with the books and records of the Company.

## Independent auditors' report (continued)

**Qatar Electricity and Water Company Q.P.S.C.**

### Report on Other Legal Requirements (continued)

- iv) Furthermore, the physical count of the Company's inventories was carried out in accordance with established principles.
- v) We are not aware of any violations of the applicable provisions of the amended QCCL or the terms of the Company's Articles of Association and any amendments thereto having occurred during the year which might have had a material effect on the Company's consolidated financial position or performance as at and for the year ended 31 December 2024.

#### 2. Major transactions and agreements of the Group

Below are the major transactions and agreements of the Group in chronological order:

- On 10 February 1999, the Company entered into an agreement with the State of Qatar for the purchase of the power plant at Ras Abu Fontas B ("RAF B"). Based on the agreement, the Company was assigned the operation and management of the power plant.
- In April 2001, the Company entered into a Power Purchase Agreement with the Qatar General Electricity and Water Corporation (hereafter the "KAHRAMAA") for the supply of electricity from the Company's Ras Abu Fontas B1 ("RAF B1") station, which commenced commercial operations on 29 August 2002.

**2. Major transactions and agreements of the Group (continued)**

c) In January 2003, the Company purchased the four stations set out below from KAHRAMAA for a total consideration of QAR 600 million. A Power and Water Purchase Agreement (hereafter "PWPA") was also signed with KAHRAMAA for its supply of electricity and desalinated water from these stations:

- Ras Abu Fontas A ("RAF A")
- Al Wajbah
- Al Saliyah
- Doha South Super

The Company discontinued the operations of the Al-Wajbah station during 2010 following instructions received from the State of Qatar. Also, Al Saliyah and Doha South Super facilities were discontinued as the relevant contracts with KAHRAMAA expired on 31 December 2014.

The Company discontinued the operations of the Ras Abu Fontas "A" station (RAF A) with effect from 31 December 2017.

d) In January 2003, the Company acquired from QatarEnergy, the Dukhan Desalination Plant for QAR 71.66 million. Subsequent to the conclusion of this purchase agreement, the Company also concluded a Land Lease Agreement, a Water Purchase Agreement, and a Fuel Supply Agreement with Qatar Energy relating to the Dukhan Desalination Plant.

Effective 31 December 2022, the Dukhan Desalination Plant's agreement with Qatar Energy was terminated and the plant was transferred back to QatarEnergy.

e) Qatar Power Q.P.J.S.C.

On 27 January 2005 Qatar Power Q.P.J.S.C. was incorporated as a joint venture for the production of electricity and desalinated water from the Ras Laffan B Integrated Water and Power Plant. The percentage shareholdings in Qatar Power Q.P.J.S.C. as at the current and the comparative reporting dates were as follows:

- Qatar Electricity and Water Company Q.P.S.C. (55%)
- International Power PLC (40%)
- Chubu Electric Power Company (5%)

f) In October 2005, the Company entered into a PWPA with KAHRAMAA for the supply of electricity and desalinated water from the Company's Ras Abu Fontas B2 ("RAF B2") station.

g) Mesaieed Power Company Limited Q.P.S.C.

On 15 January 2007, Mesaieed Power Company Limited Q.P.S.C. (MPCL) was incorporated as a joint venture between MPCL, Marubeni Corporation and QatarEnergy for the production of electricity from the Mesaieed power plant. In May 2009, Chubu Electric Power Company joined the joint venture. The shareholdings in Mesaieed Power Company Limited Q.P.S.C. as at the current and the comparative reporting dates were as follows:

- Qatar Electricity and Water Company Q.P.S.C. (40%)
- Marubeni Corporation (30%)
- QatarEnergy (20%)
- Chubu Electric Power Company (10%)

h) In May 2007, the Company entered into a Water Purchase Agreement with KAHRAMAA for the supply of desalinated water from the Company's Ras Abu Fontas A1 ("RAF A1") station.

## **Qatar Electricity and Water Company Q.P.S.C.**

### **Notes to the consolidated financial statements As at and for the year ended 31 December 2024**

---

#### **2. Major transactions and agreements of the Group (continued)**

##### **i) Ras Girtas Power Company Q.P.S.C.**

On 25 March 2008, Ras Girtas Power Company Q.P.S.C. was incorporated as a joint venture for the production of electricity and desalinated water from the Ras Laffan C plant. The percentage shareholdings in Ras Girtas Power Company Q.P.S.C. as at the current and the comparative reporting dates were as follows:

- Qatar Electricity and Water Company Q.P.S.C. (45%)
- RLC Power Holding Company (40%)
- QatarEnergy (15%)

On 7 January 2013, the Company entered into a Water Purchase Agreement (WPA) for the Ras Abu Fontas A2 Water project with KAHRAMAA.

##### **j) Nebras Power Q.P.S.C.**

On 20 May 2013, Nebras Power Q.P.S.C. ("Nebras") was incorporated as a joint venture for the purpose of acquiring electricity and water production projects outside the State of Qatar. In July 2022, the Group acquired additional 40% of the shares and voting interests in Nebras. As a result, the Group's equity interest in Nebras increased from 60% to 100%, granting it controlling interests in Nebras.

##### **k) Umm Al Houli Power Q.P.S.C.**

On 13 May 2015, Umm Al Houli Power Q.P.S.C. was incorporated as a joint venture for the purpose of the production of electricity and desalinated water from the Facility D plant. The percentage shareholdings in Umm Al Houli Power Q.P.S.C. as at the current and the comparative reporting date were as follows:

- Qatar Electricity and Water Company Q.P.S.C. (60%)
- QatarEnergy (5%)
- Qatar Foundation for Education, Science and Community Development (5%)
- K1 Energy Limited, incorporated in the U.K. (30%)

During 2021, the Group invested an additional amount of QAR 143.7 million in Umm Al Houli Power Q.P.S.C. The additional investment did not change the Company's shareholding percentage in the joint venture.

##### **l) On 13 October 2015, the Company entered into a Water Purchase Agreement (WPA) for the Ras Abu Fontas A3 Water project with KAHRAMAA.**

##### **m) Phoenix Power Company SAOG and Phoenix Operation and Maintenance Company L.L.C.**

On 18 June 2015, Nebras Power Q.P.S.C. ('Nebras'), one of the subsidiaries of the Group purchased a 0.088% shareholding in Phoenix Power Company SAOG ("PPC") at its Initial Public Offer. PPC is incorporated in the Sultanate of Oman and owns and operates a gas fired power generation facility with a capacity of 2,000 MW.

On 30 December 2015, Nebras entered into an agreement with Qatar Electricity and Water Company Q.P.S.C ("QEWC") (At this time, QEWC did not have controlling interest in Nebras), to purchase an additional 9.75% shareholding in PPC and to purchase 15% of the share capital of Phoenix Operation and Maintenance Company L.L.C. ("POM"). POM is incorporated in the Sultanate of Oman and its primary activity is to provide repair and maintenance services to PPC's power plant.

The Group exercises significant influence over the financial and operating policy decisions of PPC and POM through its representation in the Board of Directors. In particular, the Group appoints the Chairman on the Board of Directors of PPC.

**2. Major transactions and agreements of the Group (continued)**

n) Shams Ma'an Solar UK Limited

On 26 June 2015, Nebras acquired a 35% shareholding in Shams Maan Solar UK Ltd, a joint venture company registered in England and Wales engaged in the financing, building, ownership and operation of a 52.5 MW solar power plant in Ma'an city in the Kingdom of Jordan.

o) Nebras Power Oasis Ltd.

On 1 December 2015, Nebras, purchased from QEWC (at this time, QEWC did not have controlling interest in Nebras), a 38.89% shareholding in AES Oasis Ltd, incorporated in the Cayman Islands. AES Oasis Ltd holds effectively a 60% shareholding in AES Jordan PSC, which owns and operates a 370 MW combined cycle gas fired power plant in Jordan.

**d) Use of estimates and judgments**

In preparing these consolidated financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about areas that involve a higher degree of judgement or complexity, or areas where assumptions or estimates have a significant risk of resulting in a material adjustment to the consolidated financial statements are as follows:

**3. Basis of preparation (continued)**

**d) Use of estimates and judgments (continued)**

**Judgments**

*Classification of Power and Water Purchase Agreements*

The Group has entered into several long-term Power and Water Purchase Agreements ("PWPA"), Power Purchase Agreements ("PPA") and Water Purchase Agreements ("WPA") with government and non-government off-takers. The Group assesses these PWPAs, PPAs and WPAs on a case-to-case basis to determine whether the arrangement would fall under IFRIC 12, IFRS 16, IFRS 15 or IFRS 9. The Group applies significant judgement to assess the different arrangements entered into with the off-takers.

Under the PWPAs, PPAs and WPAs entered by the Group in Qatar, the Group receives payment for the provision of power and water capacity, whether or not the off-taker (KAHRAMAA) requests power or water output ("capacity payments"), and for the variable costs of production ("energy and water payments"). Based on management's estimate of the useful life and residual value of the assets, KAHRAMAA is not determined to control any significant residual interest in the property at the end of the concession term through ownership, beneficial entitlement or otherwise. Hence, the Group has assessed that these arrangements in the State of Qatar does not fall within the scope of IFRIC 12 and classified these agreements to contain lease under IFRIC 4 which were grandfathered on transition to IFRS 16.

Further, the Group assess the lease under IFRS 16 to be operating lease or finance lease. The classification of the PWPA, PPA or WPA as an operating lease is based on the judgement applied by management which considers that the Group retains the principal risks and rewards of ownership of the plants, based on management's estimate of the useful life and residual value of the assets. An estimate of the useful life of the asset and residual value is made and reviewed annually. The effects of changes in useful life and residual values are recognized prospectively, over the remaining life of the asset.

*Determining the lease term of contracts with renewal and termination options – Group as lessee*

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (also refer Note 6 (a)).

*Lease liabilities*

Management assesses whether contracts entered by the Group for renting various assets contain a lease. The lease identification, including whether or not the Group has contracted to substantially all the economic benefits of the underlying asset, may require significant judgement. Establishing the lease term may also present challenges where a contract has an indefinite term or is subject to auto renewal or there are renewal options that are unclear if they will be exercised at the option date.

The extend of the lease term significantly influences the value of the lease liability and the related right-of-use asset and arriving at a conclusion sometimes requires significant judgement calls. Furthermore, once the lease term is established, management needs to estimate the future cash flows payable over the lease term and discount them using the incremental borrowing rate that a lessee would have to pay to borrow over a similar term and with a similar security the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. That also requires significant judgment and affects both the finance lease liability and the fair value of the underlying asset (also refer Note 6 (b)).

**3. Basis of preparation (continued)**

**d) Use of estimates and judgments (continued)**

**Judgments (continued)**

*Recognition of deferred tax assets*

Deferred tax assets are recognized only to the extent management considers it probable that future taxable profits will be available against which the Group can use the benefits therefrom.

*Assets held for sale, disposal group held-for-distribution and discontinued operations*

Management has applied judgement that some of its non-current assets and a disposal group are classified as held for sale / distribution owing to the fact that their carrying values will be recovered primarily through sale and it is highly probable that the sale / distribution will occur in the next twelve months. Consequently, these assets and liabilities are classified as held for sale / distribution. Further, as part of this classification, management has applied judgement over the costs associated with the sale / distribution and have recognised certain provisions which management believes are necessary and adequate for the closure of the sale / distribution (also refer Note 39 and 40).

*Interests in other entities*

Judgement is required in assessing the level of control obtained in a transaction to acquire an interest in another entity; depending upon the facts and circumstances in each case, the Group may obtain control, joint control or significant influence over an entity or arrangement. This assessment involves consideration of a variety of factors, including shareholders' voting rights, Board representation and decision-making rights, the existence of any contractual arrangements, and indicators of de facto control.

Such classifications have a significant impact on the consolidated financial statements due to the significantly different accounting treatments of subsidiaries, associates and joint arrangements.

*Going concern*

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on a going concern basis.

**Estimates**

*Useful life and residual value of property, plant and equipment and right-of-use assets*

Items of property, plant and equipment are depreciated on a straight-line basis over their estimated individual useful lives. Management exercises significant estimate and judgement for the determination of the depreciation method and the useful lives and residual values of these assets, including their expected usage over their lives, the rate of their physical wear and tear, and their technological or commercial obsolescence. Such estimates could have a significant impact on the annual depreciation charge recognized in profit or loss (also refer Note 5 (C)).

*Impairment of non-financial assets (other than inventories)*

The carrying amounts of the Group's non-financial assets other than goodwill (Property, plant and equipment, right-of-use assets and equity accounted investees) are reviewed at each reporting date to determine whether there is any indication of impairment. That assessment requires judgement. Goodwill is tested annually for impairment. The determination of recoverable amounts of non-financial assets (the higher of their fair values less costs of disposal and their "value in use") requires management to make significant judgments, estimations and assumptions. In particular the assessment of "value in use" requires management to estimate expected future cash flows from an asset or a cash generating unit and also to choose an appropriate discount rate to discount those cash flows to present value.

**3. Basis of preparation (continued)**

**d) Use of estimates and judgments (continued)**

**Estimates (continued)**

*Impairment of inventories*

When inventories become old or obsolete, an estimate is made of their net realizable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision is applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices. The necessity and setting up of a provision for slow moving and obsolete inventories requires considerable degree of judgment (also refer Note 12).

*Impairment of financial assets measured at amortised cost*

The "expected credit loss" (ECL) impairment model requires forward looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other. It also requires management to assign probability and magnitude of default to various categories of financial assets measured at amortised cost (loans receivable, trade receivables, receivables from related parties, dividend receivable, other receivables and cash at bank). Probability of default constitutes a key input in measuring an ECL and entails considerable judgement; it is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions. The magnitude of the loss in case there is a default is also an estimate of the loss arising on default; it is based on the difference between the contractual cash flows due and those that the Group would expect to receive (also refer note 35).

*Fair value of cash flow hedges*

The Group uses derivative financial instruments to manage their exposure to the variability of bank borrowings due to fluctuations in interest rates. All such derivatives are carried at fair value. Their fair values are estimated using models and valuation methods due to the absence of quoted prices or other market-observable data. These contracts are valued using models with inputs that include price curves for each of the different products that are built up from active market pricing data and extrapolated to the expiry of the contracts using the maximum available external pricing information (also refer Note 18).

*Finance lease receivable*

The Group's management determines estimated future cash flows in respect of capacity charge for calculating effective interest rate of finance lease. This estimate is determined after considering the expected Scheduled and Forced outage of power supply in the future years. Management reviews the estimates annually while any difference between the estimated finance lease income and actual finance lease income is charged directly to the consolidated statement of profit or loss of the respective period (also refer Note 6 (d)).

*Leases - estimating the incremental borrowing rate*

Whenever the Group cannot readily determine the interest rate implicit in the lease, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is make certain entity-specific estimates (such as the Group's stand-alone credit rating).

**3. Basis of preparation (continued)**

**d) Use of estimates and judgments (continued)**

**Estimates (continued)**

*Asset retirement obligation*

The provision for asset retirement obligation is recognised at the present value of expected costs to settle the obligation using estimated cash flows and by creating a corresponding asset is recognised in property, plant, and equipment. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the asset retirement obligation. The unwinding of the discount is expensed as incurred and recognised as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

*Other provisions and liabilities*

Other provisions and liabilities are recognized in the period only to the extent management considers it probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated.

**e) New currently effective IFRS requirements**

A number of new standards and amendments to standards are effective for annual periods beginning after 1 January 2024 and earlier application is permitted. The Group has not early adopted any of the forthcoming new or amended standards in preparing these consolidated financial statements.

<b>Description</b>	<b>Effective for annual periods beginning after 1 January 2024</b>
- Non-current Liabilities with Covenants – Amendments to IAS 1	
- Classification of Liabilities as current or Non-Current-Amendments IAS 1	
- Lease Liability in Sale and Leaseback – Amendments to IFRS 16	
- Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7	

Other than the above, these amendments had no impact on the consolidated financial statements of the Group.

**f) Standards issued but not yet effective**

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements is disclosed below.

<b>Description</b>	<b>Effective for annual periods beginning after</b>
- Lack of Exchangeability – Amendments to IAS 21	1 January 2025
- Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	1 January 2026
- Annual Improvements to IFRS Accounting Standards – Volume 11	
- IFRS 18 presentation and Disclosure in Financial Statements	1 January 2027
- IFRS 19 Subsidiaries without Public Accountability Disclosures	
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28	Available for optional adoption/effective date deferred indefinitely

The group intends to adopt these standards, if applicable, when they become effective, however, these are not expected to have a significant impact on the Group's consolidated financial statements.

#### **4. Summary of material accounting policies**

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been applied consistently to both years presented in these consolidated financial statements.

##### **a) Basis of consolidation**

###### **Business combinations**

The Group accounts for business combinations using the acquisition method when control is transferred to the Group (See section on "Subsidiaries" below). The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises (See accounting policy "Goodwill") is tested annually for impairment (See accounting policy "Impairment"). Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities which are not measured at fair value through profit or loss.

###### **Subsidiaries**

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

###### **Non-controlling interests (NCI)**

NCI are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

###### **Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

###### **Interests in equity-accounted investees**

The Group's interests in equity-accounted investees comprise interests in associates and joint ventures. Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint venture are accounted for using the equity method. They are recognised initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of equity accounted investees, until the date on which significant influence or joint control ceases.

In case the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest is reduced to nil and the recognition of further losses is discontinued except to the extent the Group has an obligation to the equity accounted investee or has made payments to third parties on behalf of the equity accounted investee.

###### **Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### **4. Summary of material accounting policies (continued)**

##### **b) Foreign currency**

###### **Foreign currency transactions and balances**

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss and presented within finance costs.

However, foreign currency differences arising from the translation of the following items are recognized in OCI:

- an investment in equity securities designated as at FVOCI;
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; and
- qualifying cash flow hedges to the extent that the hedges are effective.

###### **Foreign operations**

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into Qatari Riyals at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into Qatari Riyals at the exchange rates at the dates of the transactions.

Foreign currency differences are recognised in OCI and accumulated in the translation reserve, except to the extent that the translation difference is allocated to NCI.

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to NCI. When the Group disposes of only part of an associate or joint venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

##### **c) Property, plant and equipment**

###### ***Recognition and measurement***

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition or construction of an asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

###### ***Subsequent expenditure***

The cost of renovations or replacement of a component of an item of property, plant and equipment is included in the carrying amount of the asset or recognised as a separate asset, as appropriate only when it is possible that the future economic benefits associated with the asset will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

**4. Summary of material accounting policies (continued)**

**c) Property, plant and equipment (continued)**

***Depreciation***

Depreciation is calculated to write-off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives and is recognised in the consolidated statement of profit or loss.

Property, plant and equipment is stated at cost less accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets or the duration of contractual agreements with off-takers.

	<b>Useful life</b>
Production facilities	30 years
Capital spares	30 years
Solar photovoltaic assets	15-30 years
Furniture, fixtures, and office equipment	3-7 years
Motor vehicles	4-5 years
"C" inspection costs	3-5 years

Capital work-in-progress are not depreciated. Once completed work-in-progress are re-classified to the appropriate category of property, plant and equipment and depreciated accordingly.

Capital spares are depreciated over its remaining useful life when it is being put to use.

Depreciation methods, residual values and useful lives are reviewed at each reporting date and adjusted prospectively, if appropriate.

**Derecognition**

An item of property, plant and equipment is derecognised upon disposal (i.e. at the date the recipient obtain control) or when no future economic benefits are expected from its use or disposal. Profits and losses on disposals of items of property, plant and equipment are determined by comparing the proceeds from their disposals with their respective carrying amounts and is included in the consolidated statement of profit or loss.

**d) Right-of-use assets**

**Recognition and measurement**

Right-of-use assets are recognized at the lease commencement date at cost, which comprises the initial amount of the lease liability (see accounting policy "Lease liabilities") adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

**Subsequent measurement**

Items of right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated to write off the cost of a right-of-use asset using the straight-line method over the earlier of the lease term and its useful life. It is depreciated over its useful life, if the lease agreement either transfers ownership of the right-of-use asset to the Group by the end of the lease term or reflects that the Group will exercise a purchase option at the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment.

In addition, the carrying value of a right of use asset may be periodically adjusted for certain remeasurements of the related lease liability (see accounting policy "Lease liabilities").

**4. Summary of material accounting policies (continued)**

**d) Right-of-use assets (continued)**

**Derecognition**

An item of a right-of-use asset is derecognised at the earlier of end of the lease term, cancellation of lease contract or transfer of control of the underlying asset. In case control of the underlying asset passes to the Group, the carrying value of the right-of-use asset is reclassified to property and equipment.

**e) Goodwill**

**Initial measurement**

Goodwill arising on the acquisition of a business is measured as the excess of the consideration transferred over the fair value of the identifiable net assets acquired. In case the consideration transferred is less than the fair value of the net identifiable assets acquired, then the difference is recognized directly in profit or loss as a bargain purchase. Where settlement of any part of consideration transferred is deferred, the consideration to be transferred in future periods is discounted to present value as at the date of the transaction. The discount rate used is the Group's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

**Subsequent measurement**

Goodwill is not amortised, but is tested for impairment on an annual basis or more frequently if there are events and circumstances indicating that it has been impaired (See accounting policy "Impairment").

**f) Intangible assets**

**Recognition and measurement**

Intangible assets comprise the Power and Water Purchase Agreements (PWPA) that are acquired by the Group and have finite useful lives and are measured at cost less accumulated amortization and any accumulated impairment losses, if any.

**Subsequent expenditure**

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

**Amortization**

Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is recognized in the consolidated statement of profit or loss.

The estimated useful life of the contract rights over the Power and Water Purchase Agreement is 25 years.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

**Derecognition**

An intangible asset is derecognized upon disposal (i.e. at the date the recipient obtains control) or losses when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss.

#### **4. Summary of material accounting policies (continued)**

##### **g) Inventories**

Inventories comprise spare parts, chemicals, and consumables, which are measured at the lower of cost or net realisable value. The cost of inventories is based on the weighted average method or FIFO as appropriate, and includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their existing location and condition. Net realisable value is the estimated selling price in the ordinary course of business and the estimated costs necessary to make the sale.

A provision is made for any write-down of inventories to net realisable value and such a provision is reflected as an expense in profit or loss in the period of the write-down. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised in profit or loss in the period in which the reversal occurs.

##### **h) Leases**

###### **Leases – Group as a lessee:**

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either the Group has the right to operate the asset; or the Group designed the asset in a way that predetermines how and for what purpose it will be used.

The above policy is applied to contracts effective as on or entered into after 1 January 2019.

Where it is established that the Group is a lessee, a right-of-use asset (See accounting policy "Property and equipment") and a lease liability are recognized at the lease commencement date.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

Lease liabilities are subsequently measured at amortised cost using the effective interest method.

#### **4. Summary of material accounting policies (continued)**

##### **h) Leases (continued)**

###### **Leases – Group as a lessee (continued):**

A lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When a lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

###### **Short-term leases and leases of low-value assets**

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

###### **Leases – Group as a lessor**

A lease is an agreement whereby the lessor conveys to the lessee, in return for a payment or series of payments, the right to use an asset for an agreed period of time.

Leases in which a significant portion of the risk and rewards of ownership are retained by the lessor are classified as operating leases. Under an operating lease, the asset is included in the statement of financial position as property and equipment. Lease income is recognized over the term of the lease on a straight-line basis. This implies the recognition of deferred income when the contractual day rates are not constant during the initial term of the lease contract.

Leases in which a significant portion of the risk and rewards of ownership are transferred to the lessee are classified as finance leases. They are initially recognised as "Finance lease receivables" on the statement of financial position at the present value of the minimum lease payments (the net investment in the lease) receivable from the lessee over the period of the lease. Over the lease term, each lease payment made by the lessee is allocated between the "Finance lease receivables" and "Finance lease income" in profit or loss so as to achieve a constant rate on the finance lease receivable balance outstanding.

##### **i) Financial instruments**

###### **Recognition and initial measurement**

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset, unless it is a trade receivable without a significant financing component, or a financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition. An accounts receivable without a significant financing component is initially measured at the transaction price.

#### **4. Summary of material accounting policies (continued)**

##### **i) Financial instruments (continued)**

###### ***Classification and subsequent measurement of financial assets***

###### *Classification on initial recognition*

On initial recognition, a financial asset is classified at:

- Amortised cost – if it meets both of the following conditions and is not designated as at FVTPL:
  - it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
  - its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- Fair Value Through Other Comprehensive Income (FVOCI) - if it meets both of the following conditions and is not designated as at FVTPL:
  - it is held within a business model whose objective achieved by both collecting contractual cash flows and selling financial assets; and
  - its contractual terms give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.
- Fair Value Through Profit or Loss (FVTPL) – All financial assets not classified as measured at amortised cost or FVOCI as described above.

On initial recognition, the Group may irrecoverably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. The Group has classified on initial recognition its loans receivable, its trade receivables, its receivables from related parties, its dividend receivable, its other receivables and its cash at bank at amortised cost. The Group does not hold any other financial assets.

###### *Business model assessment*

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual cash flows or realising cash flows through the sale of assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

###### *Assessment whether contractual cash flows are Solely Payments of Principle and Interest (SPPI)*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

**4. Summary of material accounting policies (continued)**

**i) Financial instruments (continued)**

***Classification and subsequent measurement of financial assets (continued)***

In assessing whether the contractual cash flows are SPPI, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the SPPI criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

***Subsequent measurement and gains and losses***

- Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
- Financial assets at Fair Value Through Profit or Loss (FVTPL) - These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss. The Group does not hold such assets.
- Debt instruments at Fair Value Through Other Comprehensive Income (FVOCI) - These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss. The Group does not hold such assets.
- Equity investments at Fair Value Through Other Comprehensive Income (FVOCI) - These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never derecognised to profit or loss. The Group does not hold such assets.

***Classification and subsequent measurement of financial liabilities***

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. The Group does not have financial liabilities at FVTPL.

Other financial liabilities (loans and borrowings, and other payables) are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

**4. Summary of material accounting policies (continued)**

**i) Financial instruments (continued)**

***Classification and subsequent measurement of financial assets (continued)***

**Derecognition**

*Financial assets*

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

In the case the Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

*Financial liabilities*

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liabilities are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

***Offsetting***

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***Derivative financial instruments and hedge accounting***

The Group and certain equity-accounted investees of the Group hold derivative financial instruments to hedge their interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

Certain derivatives are designated as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in interest rates.

*Cash flow hedges*

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated in the hedging reserve. The effective portion of changes in the fair value of the derivative that is recognised in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

**4. Summary of material accounting policies (continued)**

**i) Financial instruments (continued)**

***Derivative financial instruments and hedge accounting (continued)***

*Cash flow hedges (continued)*

Only the change in fair value of the spot element of forward exchange contracts is designated as the hedging instrument in cash flow hedging relationships. The change in fair value of the forward element of forward exchange contracts (forward points) is separately accounted for as a cost of hedging and recognised in a cost of hedging reserve within equity.

When the hedged forecast transaction subsequently results in the recognition of a non-financial item such as inventory, the amount accumulated in the hedging reserve and the cost of hedging reserve is included directly in the initial cost of the non-financial item when it is recognized.

For all other hedged forecast transactions, the amount accumulated in the hedging reserve and the cost of hedging reserve is reclassified to profit or loss in the same period or periods during which the hedged expected future cash flows affect profit or loss.

If the hedge no longer meets the criteria for hedge accounting or the hedging instrument is sold, expires, is terminated or is exercised, then hedge accounting is discontinued prospectively. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in the hedging reserve remains in equity until, for a hedge of a transaction resulting in the recognition of a non-financial item, it is included in the non-financial item's cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit or loss in the same period or periods as the hedged expected future cash flows affect profit or loss.

If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in the hedging reserve and the cost of hedging reserve are immediately reclassified to profit or loss.

**j) Impairment**

***Non-derivative financial assets***

The Group recognises loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortised cost (loans receivable from related parties, trade and other receivables, finance lease receivables, and cash at bank). The Group does not hold debt investments and equity investments that are measured subsequently at FVTPL.

The Group measures loss allowance either at an amount equal to:

- lifetime ECLs, which are those ECLs that result from all possible default events over the expected life of a financial instruments; or
- 12-month ECLs, which includes the portion of ECLs that results from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The Group considers that it is not exposed to any credit risk with respect to its receivables from governments or their controlled entities.

For the financial assets, except for the cash at bank, the Group applied the simplified approach to measuring ECLs which recognises the lifetime ECLs of these assets that reflect an increased credit risk. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment and including forward looking information.

**4. Summary of material accounting policies (continued)**

**j) Impairment (continued)**

***Non-derivative financial assets (continued)***

Loss allowances on bank balances are always measured at an amount equal to 12-month ECLs. The Group considers bank balances to have a low risk level when their credit risk rating is equivalent to the globally understood definition of "investment grade".

*Measurement of ECLs*

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

*Credit-impaired financial assets*

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is "credit impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the customer;
- a breach of contract such as a default or a dispute with the customer;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise; or
- it is probable that the borrower / customer will enter into bankruptcy or other financial reorganisation.

*Presentation of loss allowance on financial assets in the statement of financial position*

Any loss allowance on financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

*Write-off*

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

**Non-financial assets**

At each reporting date, management reviews the carrying amounts of its non-financial assets (Property, plant and equipment, right-of-use assets, investment in equity accounted investees and goodwill, but not inventories) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (CGUs). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or a CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the CGU.

**4. Summary of material accounting policies (continued)**

**j) Impairment (continued)**

**Non-financial assets (continued)**

An impairment loss is recognized if the carrying amount of an asset or a CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognised.

**k) Cash and cash equivalents**

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash, bank balances and short-term deposits, with an original maturity of three months or less, as they are considered an integral part of the Group's cash management.

**l) Assets held for sale / distribution**

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for-sale / distribution if it is highly probable that they will be recovered primarily through sale rather than through continuing use or when the entity is committed to distributing the asset or disposal group to its owners .

Such assets, or disposal groups, are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial recognition of assets held-for-sale or held-for-distribution and subsequent gains and losses on remeasurement are recognised in profit or loss. Once classified as held-for-sale / distribution, intangible assets and property, plant and equipment are no longer amortised or depreciated, and any equity-accounted investee is no longer equity accounted.

**m) Discontinued operations**

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which:

- represents a separate major line of business or geographic area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographic area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale / distribution. When an operation is classified as a discontinued operation, the comparative statement of profit or loss and OCI is re-presented as if the operation had been discontinued from the start of the comparative year.

**n) Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity.

**o) Foreign currency translation reserve**

The translation reserve records exchange differences arising from the translation of the financial statements of foreign operations. Upon disposal of foreign operations, the related accumulated exchange differences are recycled to the profit or loss. Also, refer policy "foreign currency transactions and balances".

#### **4. Summary of material accounting policies (continued)**

##### **p) Employee benefits**

###### *Short-term employee benefits*

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

###### *Defined contribution plans*

Obligations for contributions to defined contribution plans which are provided to its employees, are expensed as the related service is provided. For Qatari nationals, the Group makes contributions to Qatar Retirement and Pension Authority as a percentage of the employees' salaries in accordance with the requirements of respective local laws pertaining to retirement and pensions. The Company's share of contributions to these schemes are charged to profit or loss to the year they relate.

###### *Defined benefit plans*

The Group provides end of service benefits to its employees in accordance with employment contracts and the Qatar Labour Law. The entitlement to these benefits is based upon the employees' final basic salary and length of service, subject to the completion of a minimum service period, and are payable to the employees on termination of their employment. The expected costs of these benefits are accrued over the period of employment.

##### **q) Provisions**

A provision is recognised when:

- the Group has a present obligation (legal or constructive) as a result of a past event;
- it is probable that the Group will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

The amount of a provision is the present value, of the best estimate, of the amount required to settle the obligation. Provisions are reviewed annually to reflect current best estimates of the expenditure required to settle the obligations.

##### **r) Revenue recognition**

###### ***Revenue from contracts with customers***

Revenue from contracts with customers for sale of goods or services in the ordinary course of the Group's activities is recognized in accordance with the 5-step model in accordance with the requirements of IFRS 15.

###### ***Revenue from sale of water and electricity***

Revenue from sale of water and electricity is recognised at a point in time when control of the goods and service is transferred to the customer, generally on delivery of the goods and services. The Group recognises output charges revenue based on the sent-out electricity and water on a monthly basis.

The Group sells power and water, produced in power generation and water desalination plants operating with gas, coal, wind and solar energy. Customer takes control of the power and water at the time these are dispatched from the plant. At this point, the customer has full discretion over the manner of distribution and price to sell the power and water, has the primary responsibility when on selling the power and water, and bears the risks of loss in relation of power and water in the network. Therefore, revenue is recognised when the power and water is dispatched from the Group's plants.

**4. Summary of material accounting policies (continued)**

**r) Revenue recognition (continued)**

***Revenue from available capacity relating to fixed capital recovery and fixed operations and maintenance***

Revenue from available capacity relating to fixed capital recovery and fixed operations and maintenance is recognised on a systematic basis in accordance with IFRS 16 when the Group makes the capacity available to off-taker as per the terms of the Power and Water Purchase Agreement (PWPA).

***Revenue from other sources***

*Income from finance lease*

Income from finance lease in which the Group is lessor is recognised based on a pattern reflecting a constant periodic rate of return on the Group's net investment in the finance lease.

*Dividend income*

Dividend income from investments is recognized when the shareholder's right to receive payment has been established.

*Interest income*

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

*Fee income*

Fee income is recognized through the period for which the services are provided. The Group generates fee income from providing technical, financial and construction management services.

**s) Income tax**

Income tax expense comprises current and deferred tax attributed to each of the Group entities. It is recognized in profit or loss.

***Current tax***

Current tax comprises the total of the expected tax payable or receivable on the taxable profit or loss for the year, adjusted for any corrections to the tax payable or receivable of previous years. It is calculated on the basis of the local and foreign tax laws enacted or substantively enacted at the reporting date.

***Deferred tax***

Deferred tax is recognized in respect of temporary differences arising between the carrying amounts of assets and liabilities reported in the financial statements of each Group entity and their respective amounts used for tax purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled using tax rates based on tax laws that have been enacted or substantially enacted by the reporting date.

**4. Summary of material accounting policies (continued)**

**t) Earnings per share**

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees, if any.

**u) Foreign currency transactions and balances**

Transactions in foreign currencies during the year are translated into the functional currency of the Group at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the end of the year are translated into the functional currency at the exchange rate at the reporting date. Foreign currency differences are recognized in the consolidated statement of profit or loss. On consolidation, the assets and liabilities of foreign operations are translated into QAR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss.

**v) Dividend distribution to the Company's shareholders**

Dividend distribution to the Company's shareholders is recognised as a liability in the consolidated financial statements in the year in which the dividends are approved by the Company's shareholders.

**w) Government grants**

A government grant in the form of a transfer of a non-monetary asset, such as land or other resources, which is intended for use by the entity are recognized, at a nominal amount.

**x) Fair values**

The Group measures financial instruments such as derivatives, and non-financial assets such as investment securities, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- In the absence of a principal market, in the most advantageous market for the asset or liability

**y) Pass-through items**

All pass-through items defined under the provision of PWPA shall be reimbursed by the off takers in accordance with the relevant clauses of PWPA. All pass-through items are recorded as receivable from the off takers and payable to respective third party.

**4. Summary of material accounting policies (continued)**

**z) Current versus non-current classification**

The Group presents assets and liabilities based on current/non-current classification. An asset is current when it is:

- Expected to be recognised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be recognised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

**(A) Production facilities**

The land on which the RAF A1, RAF A2, RAF A3, RAF B, RAF B1 and RAF B2 plants were constructed has been leased to the Company by the State of Qatar free of rent for a period of 50 years commencing from 5 July 1990 under the Emiri Decree No. 24 of 2001.

**5. Property, plant and equipment (continued)**

**(B) "C" Inspection costs**

Costs incurred for the production facilities under an inspection and maintenance program have been capitalized under "C" inspection costs. These costs are accounted for as separate assets as they have an estimated useful life of 3-5 years. Costs incurred on "C" inspections in progress are included under capital work in progress. On completion of these inspections, their cost will be capitalized under the "C" inspection costs category.

**(C) Depreciation**

The annual depreciation charge has been allocated to profit or loss as follows:

	<b>2024</b>	2023
Cost of sales (Note 25)	332,280	335,205
General and administrative expenses (Note 26)	3,205	2,075
	<u><b>335,485</b></u>	<u>337,280</u>

**6. Leases**

The Group has leased the office premises for a period of 36 to 60 months, with an option to renew the lease after that date by mutual agreement. Management has not considered any extension option for any of its leases. The Group is restricted from entering into any further sub-lease arrangements without the written consent of the lessor.

The Group also leases properties for staff accommodation. Majority of these leases are short-term and/or leases of low-value items. The Group has elected not to recognise right-of-use assets and lease liabilities for these leases. Further, the Group leases vehicles and equipment on short-term basis where it does not recognise right of use assets and lease liabilities.

Termination of lease	-	(775)
Effect of movements in exchange rates	(3,486)	90
<b>At the end of the year</b>	<b><u>43,546</u></b>	<b><u>55,817</u></b>

The lease liabilities are presented in the consolidated statement of financial position as at 31 December as follows:

	<b>2024</b>	2023
Non-current	32,688	45,055
Current	10,858	10,762
<b>At the end of the year</b>	<b><u>43,546</u></b>	<b><u>55,817</u></b>

The following are the amounts recognised in the statement of profit or loss:

	<b>2024</b>	2023
Depreciation of right-of-use assets (Note 26)	10,778	10,376
Interest on lease liabilities (Note 29)	1,947	13,709

**(c) Extension options**

The sub-lease arrangements contain extension option exercisable by the Group and to be agreed by mutual consent. The extension options held are exercisable only by the Group and not by the lessor. The Group assesses at the lease commencement date whether it is reasonably certain to exercise the extension option.

**(d) Finance lease receivables**

The Group has determined that one of the subsidiaries' (Ras Laffan Power Company Limited Q.P.S.C.) Power and Water Purchase Agreement (PWPA) with KAHRAMAA contained a lease in accordance with IFRIC 4, which was grandfathered, when the group transitioned to IFRS 16 and, accordingly, the Group has accounted for the cost of the plant as a finance lease receivable.

Present value of minimum lease receivable is the gross lease receivable in the lease discounted at the interest rate implicit in the lease. The interest rate of 9.32% per annum (2023: 9.32% per annum) is estimated by the management as the interest rate implicit in the lease. Income from finance leases is recognised based on a pattern reflecting a constant periodic rate of return on the Group's net investment in the finance lease. The finance lease receivables at the end of the reporting period were neither past due nor impaired.

	<b>2024</b>	2023
Gross lease receivable	706,894	942,979
Unearned finance income	(112,089)	(178,091)
<b>Present value of minimum lease receivable</b>	<b><u>594,805</u></b>	<b><u>764,888</u></b>

**6. Leases (continued)**

**(d) Finance lease receivables (continued)**

The finance lease receivable is presented in the consolidated statement of financial position as follows:

	<b>2024</b>	2023
Non-current portion	410,898	594,806
Current portion	183,907	170,082
	<u><b>594,805</b></u>	<u>764,888</u>

The non-current portion is further analyzed as follows:

	<b>2024</b>	2023
Later than one year and not later than five years	410,898	558,674
Later than five years	-	36,132
	<u><b>410,898</b></u>	<u>594,806</u>

	<b>2024</b>	2023
At the beginning of the year	764,888	798,419
Lease interest recognized during the year	80,597	74,954
Capital and lease interest recovered during the year	(250,680)	(108,485)
<b>At the end of the year</b>	<u><b>594,805</b></u>	<u>764,888</u>

**7. Intangible assets and goodwill**

During the previous years, the Group has identified and recorded the following intangible assets with definite useful lives and goodwill.

	<b>2024</b>	2023
Intangible assets (i)	29,852	35,822
Goodwill (ii)	30,813	30,813
	<u><b>60,665</b></u>	<u>66,635</u>

**(i) Intangible assets**

	<b>2024</b>	2023
<b>Cost:</b>		
At the beginning of the year	113,430	113,430
<b>At the end of the year</b>	<u><b>113,430</b></u>	<u>113,430</u>
<b>Amortisation:</b>		
At the beginning of the year	77,608	71,638
Amortisation (Note 26)	5,970	5,970
<b>At the end of the year</b>	<u><b>83,578</b></u>	<u>77,608</u>
<b>Net carrying amount:</b>		
<b>At the end of the year</b>	<u><b>29,852</b></u>	<u>35,822</u>

This represents the contract rights from the Power and Water Purchase Agreement entered into between Ras Laffan Power Company Q.P.S.C., a subsidiary of the Company, and KAHRAMAA for the supply of electricity and desalinated water to KAHRAMAA for a period of 19 years from the date of step-up acquisition on 20 October 2010.

**7. Intangible assets and goodwill (continued)****(ii) Goodwill****Acquisition of subsidiaries**

Goodwill is the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets and liabilities on the date of acquisition. Goodwill has been allocated to the cash-generating unit that benefits from the business combination as follows.

<b>Cash generating unit</b>	<b>2024</b>	<b>2023</b>
Ras Laffan Power Company Limited Q.P.S.C.	<u>30,813</u>	<u>30,813</u>

**Impairment testing of goodwill***Key assumptions used in value in use calculations*

The recoverable amount of cash generating unit has been determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering remaining power and water purchase agreement period.

The principal assumptions used in the projections relate to Weighted Average Cost of Capital (WACC). The assumptions are constructed based upon historic experience and management's best estimate of future trends and performance and take into account anticipated efficiency improvements over the forecasted period.

*Discount rates*

Discount rates reflect management's estimate of the risks specific to each unit. Discount rates are based on a weighted average cost of capital for the cash generating unit (CGU).

<b>Cash generating units</b>	<b>Discount rates used in 2024</b>	<b>Discount rates used in 2023</b>
Ras Laffan Power Company Limited Q.P.S.C.	<b>5.28%</b>	5.12%

*Growth rate estimates*

Future expected cash flows used in the calculation of the value in use were mainly derived from the existing power and water purchase agreements. These include fixed and variable capacity charges, specific yields, peak % and the proposed tariffs, which are all governed by the respective power and water purchase agreements.

Management has performed impairment testing exercise for the cash generating unit and determined the recoverable value to be higher than the carrying value. Therefore, no impairment was required to be recorded as at 31 December 2024 (2023: nil).

**Sensitivity testing**

At 31 December 2024, the results of the sensitivity tests show that no reasonably possible change in key assumptions brought the recoverable value of these CGUs below their net carrying amounts.

**8. Equity-accounted investees**

The movements in the Group's investments in the equity-accounted investees were as follows:

	<b>2024</b>	2023
At the beginning of the year	8,304,635	8,904,680
Additional investment made during the year	373,639	463,627
Reclassifications made during the year	-	(506,174)
Share of results for the year	680,162	672,284
Share of other comprehensive income – cash flow hedges	439,547	(598,647)
Share of other comprehensive income – foreign currency translation	(133,144)	(20,242)
Dividends received	<u>(763,876)</u>	<u>(610,893)</u>
<b>At the end of the year</b>	<b><u>8,900,963</u></b>	<b><u>8,304,635</u></b>

The summarized financial information of the Group's equity-accounted investees as included in their own financial statements and reconciles the summarised information to the carrying amount of the Group's interest in the equity-accounted investees are shown below:

**8. Equity-accounted investees (continued)**

(i) Qatar Power Q.J.P.S.C. (the "Company")

During 2020, the General Tax Authority (GTA) had issued an income tax assessment for the years 2016 and 2017 related to taxability of foreign shareholders' share of profits, requiring the Company to pay additional taxes of USD 17.2 million (QAR 62.7 million). Basis the assessment, the Company had created a provision for the additional taxes and also recognized receivables for the same amount as the Company is entitled to be compensated for the tax expenses either by KAHRAMAA as per the PWPA (pass through arrangement) or by the Ministry of Finance (MoF) as per the Memorandum of Understanding ("MoU") signed on 2 February 2020.

During the previous year, the Court of Cessation rejected the subsequent appeal filed by the Company as well as the appeal filed by GTA although the Court earlier had ruled in favour of the Company agreeing with the independent expert's opinion but with some conflicting elements pertaining to the year 2017. Management is consulting with their legal advisors for the next steps and the necessary actions to be taken to resolve this matter.

During the year, GTA issued an additional income tax assessment for the year 2018 requiring the Company to pay additional taxes of USD 17.8 million (QAR 64.9 million) related to the taxability of foreign shareholders' share of profits. Similar to the above assessments, considering that the taxability of foreign shareholders were not applicable in the erstwhile tax law, the Company has appealed to the Appeal Committee and the hearing is yet to be scheduled. Due to the uncertainties of the outcome, the Company has recorded additional liability amounting to USD 8.9 million (excluding penalties). However, the Company has no tax exposure as any additional taxes to be borne by the Company will be compensated by KAHRAMAA as per the PWPA (pass through arrangement) or by the Ministry of Finance (MoF) as per the Memorandum of Understanding ("MoU") signed on 2 February 2020. Therefore, the Company has also recognized a corresponding receivable for the additional liability of USD 8.9 million.

(ii) Ras Girtas Power Company Q.P.S.C. (the "Company")

During 2019, the General Tax Authority (GTA) issued an income tax assessment for the years 2010 to 2018 requiring the Company to pay additional taxes of USD 85 million (QAR 310 million) including penalties amounting to USD 27 million (QAR 98.4 million) although the Company had a tax holiday for the period from April 2011 to March 2017. The Appeals Committee provided their judgement in favour of the Company, however due to lack of clarity on application of the decision and in the absence of any instructions to GTA to act on the judgement, the Company has sought clarity from the Appeals Committee which is currently pending.

As of the reporting date, the Company has recognised provision for the additional taxes of USD 85 million and also recorded receivables for the same amount as the Company is entitled to be compensated for the tax expenses either by KAHRAMAA as per the PWPA (pass through arrangement) or by the Ministry of Finance (MoF) as per the Memorandum of Understanding ("MoU") signed on 2 February 2020. Management has applied its judgment in determining that the above arrangements will also cover any tax penalties to be paid, if any, for the prior years.

During 2023, KAHRAMAA has disputed certain receivables pertaining to the year 2019 to 2023 amounting to USD 31.8 million (QAR 115.9 million) citing the provisions of the tax law. Management believes that the same is recoverable from KAHRAMAA as per the provisions of the PWPA and accordingly, the Company has not created any provisions in this regard. Currently, the Company is in the process of formulating the appropriate strategy to respond to KAHRAMAA and obtaining consultations from GTA, wherever necessary.

**9. Equity investments at fair value through other comprehensive income**

	<b>2024</b>	2023
At the beginning of the year	2,017,318	2,322,763
Disposals	-	(316,732)
Net change in fair value (1)	121,421	11,287
<b>At the end of the year</b>	<b><u>2,138,739</u></b>	<b><u>2,017,318</u></b>

During the year, dividend income of QAR 127.3 million (2023: QAR 113.9 million) was earned on equity investments at fair value through other comprehensive income, which is included under "other income" in the consolidated statement of profit or loss (Note 28).

All equity investments at fair value through other comprehensive income are equity securities listed on the Qatar Exchange. The fair value of the quoted equity shares is determined by reference to the published market price.

- (1) The fair value reserve comprises the cumulative net change in the fair value of equity investments at fair value through other comprehensive income.

	<b>2024</b>	2023
At the beginning of the year	525,521	614,751
Transfer directly to retained earnings upon disposal of equity securities	-	(100,517)
Net unrealised gain recognised during the year	121,421	11,287
<b>At the end of the year</b>	<b><u>646,942</u></b>	<b><u>525,521</u></b>

**10. Other non-current assets**

	<b>2024</b>	2023
Debt service reserve (1)	29,002	27,314
Project development costs (2)	7,811	4,440
Contributions to Facility E IWPP project (3)	35,457	-
Prepaid expenses	5,042	6,847
Others	1,404	33,923
	<b><u>78,716</u></b>	<b><u>72,524</u></b>

- (1) This represents the balance the Group must hold on the reserve bank accounts, as a requirement from the lenders.
- (2) This consists of incidental costs incurred for potential future acquisition of interests in equity-accounted investees and includes financial and technical due diligences, feasibility and market studies and financial and legal advisory expenses.
- (3) A new IWPP (independent water and power plant) project is being established to construct a natural gas-fired plant with capacity of 100 MIGD of desalination water and 2300 MW of power under the 'BOOT' model (Build, Own, Operate and Transfer). The Group has committed to own 55% interests in the project and has entered into an Early Stage Cooperation Agreement ("ESCA") with the other partners (Sumitomo Corporation and Qatar Energy). Pursuant to the arrangement, the Group has committed to contribute USD 239.9 million (through cash calls) towards the project development budget and as of the reporting date, the Group has already funded to the extent of USD 9.7 million equivalent to QAR 35,457 thousand.

**11. Taxation**

The components of income tax are as follows:

	<b>2024</b>	2023
Current tax (i)	(11,312)	(13,676)
Deferred tax (ii)	7,435	19,713
	<b><u>(3,877)</u></b>	<b><u>6,037</u></b>

**(i) Current tax**

The current tax comprises of the tax expenses incurred by the subsidiaries of the Group including the foreign subsidiaries held through Nebras Power Q.P.S.C.

Further, on 17 January 2019, Qatar published the Income Tax Law No. 24 of 2018 (the "New Tax Law") in the official Gazette. The New Tax Law is effective for financial years starting on or after 13 December 2018. The Executive Regulations to the New Tax Law were issued in December 2019. Article 2(12) of the Executive Regulations states that for the purposes of Article 4(13) of the Law, the exemption referred to in respect of the share of a non-Qatari investor shall not apply to his shares in the profits of a company owned by a listed company (i.e., whose shares are traded on the stock exchange in the State). This means that effective non-Qatari ownership of Qatar Electricity and Water Company Q.P.S.C. (QEWC) in the subsidiaries, joint ventures and associates is taxable.

On 2 February 2020, QEWC, QatarEnergy ("QE"), Ministry of Finance (MoF) and the General Tax Authority (GTA) reached an agreement through a Memorandum of Understanding ("hereby referred to as the MOU") which states that the income tax liability pertaining to certain listed companies' (including QEWC) share in their subsidiaries, joint ventures and associates would be borne by the MoF. Accordingly, application of the new Income Tax Law requirements stated above did not have any material impact on Group's consolidated financial statements for the years ended 31 December 2024 and 2023.

**(ii) Deferred taxes**

	Balance as of 1 January 2024	Recognised in profit or loss	Cumulative translation adjustment Impact	Deferred tax asset released	Transfer to an associate	Deferred tax assets / (liabilities) as at 31 December 2024
Temporary differences	48,819	13,846	(3,669)	(2,032)	-	56,964
Deductible differences	-	(6,411)	-	-	-	(6,411)

	Balance as of 1 January 2023	Recognised in profit or loss	Cumulative translation adjustment Impact	Deferred tax asset released	Transfer to an associate	Deferred tax assets as at 31 December 2023
Temporary differences	32,124	19,713	408	(3,135)	(291)	48,819
Deductible differences	-	-	-	-	-	-

(iii) Qatar, the jurisdiction of the Group, is committed to adopt and implement the Base Erosion and Profit Shifting (BEPS) Pillar Two Anti-Global Base Erosion ("GloBE") Rules. These rules incorporate multiple mechanisms designed to ensure that large multinational enterprises (MNEs) maintain a minimum effective tax rate of 15% (Global Minimum Tax - GMT), calculated based on net profits in each jurisdiction where an entity operates. The legislation for the implementation of this GMT is currently under approval process and expected to be effective from financial year 2025. The Group has conducted an impact assessment and concluded that there is no impact on the consolidated financial statements as of the reporting date.

	<b>2024</b>	2023
Spare parts	128,231	132,135
Provision for slow-moving inventories	<u>(35,276)</u>	<u>(36,755)</u>
	<b>92,955</b>	95,380
Others	<u>1,364</u>	<u>1,533</u>
	<b><u>94,319</u></b>	<b><u>96,913</u></b>

The movements in the provision for slow-moving inventories were as follows:

	<b>2024</b>	2023
At the beginning of the year	36,755	36,938
(Reversal of) / provision made during the year (Note 26)	(889)	477
Write-off during the year	<u>(590)</u>	<u>(660)</u>
<b>At the end of the year</b>	<b><u>35,276</u></b>	<b><u>36,755</u></b>

**13. Trade and other receivables**

	<b>2024</b>	2023
Trade receivables*	973,106	692,163
Accrued interest receivables	24,676	43,641
Receivables from related parties (34(c))	83,647	41,450
Prepayments and other receivables	<u>73,551</u>	<u>82,768</u>
	<b>1,154,980</b>	860,022
Less: Allowance for impairment of trade receivables	<u>(9,944)</u>	<u>(3,765)</u>
	<b><u>1,145,036</u></b>	<b><u>856,257</u></b>

\* This includes amount due from one of related parties, KAHRAMAA as disclosed in Note 34(c).

The movement of allowance for impairment losses are as follows:

	<b>2024</b>	2023
At the beginning of the year	3,765	-
Provision during the year	<u>6,179</u>	<u>3,765</u>
<b>At the end of the year</b>	<b><u>9,944</u></b>	<b><u>3,765</u></b>

**14. Cash and bank balances**

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise the following:

	<b>2024</b>	2023
Cash at bank – call and current accounts (1)	770,465	1,026,403
Term deposits (2)	2,073,872	2,755,630
Cash in hand	<u>86</u>	<u>5,278</u>
<b>Cash and bank balances</b>	<b>2,844,423</b>	3,787,311
Less: Term deposits with original maturity over 90 days	<u>(1,557,755)</u>	<u>(1,633,298)</u>
<b>Cash and cash equivalents for the purpose of the consolidated statement of cash flows</b>	<b><u>1,286,668</u></b>	<b><u>2,154,013</u></b>

Notes:

- 1- Cash held in bank current accounts earns no interest.
- 2- Term deposits are made for varying terms depending on the immediate cash requirements of the Group and earn interest at market rates.

**14. Cash and bank balances (continued)**

Cash and cash equivalents are denominated in the following currencies:

	<b>2024</b>	2023
Qatari Riyals	1,951,671	3,052,093
Euro	6,579	28,254
Brazilian Real	56,883	53,582
US Dollars	795,933	603,955
Ukrainian Hryvnia	7,231	4,520
Australian Dollars	26,126	44,907
	<u><b>2,844,423</b></u>	<u><b>3,787,311</b></u>

**15. Share capital**

	<b>2024</b>	2023
<i>Authorized, issued and paid-up share capital</i>		
1,100,000,000 ordinary shares with nominal value of QAR 1 each (All shares bear equal rights)	<u><b>1,100,000</b></u>	<u><b>1,100,000</b></u>

**16. Legal reserve**

In accordance with the provisions of the Qatar Commercial Companies' Law No. 11 of 2015 (as amended by Law No. 8 of 2021), a minimum amount of 10% of the profit in each year is required to be transferred to a legal reserve until the legal reserve becomes equal to 50% of the Company's paid-up share capital. This reserve is not available for distribution, except in circumstances specified in the above-mentioned Law. The Company made no transfers to its legal reserve in the current year and the comparative year as its legal reserve already reached 50% of its paid-up share capital.

**17. General reserve**

In accordance with the Company's Articles of Association, the General Assembly may allocate a portion of the profit to a general reserve. There is no restriction on the distribution of this reserve and the funds in the reserve are available for future development of the Company as decided by the General Assembly.

**18. Hedge reserve**

**(a) Hedging reserves**

The hedge reserve comprises the Group's share of the effective portion of the cumulative net change in the fair value of interest rate swaps and forward contracts used for cash flow hedging.

	<b>2024</b>	2023
At the beginning of the year	176,478	888,196
Equity-accounted investees - share of OCI – net of related tax (1)	439,547	(598,647)
Cash flow hedges – effective portion of changes in fair value – net of related tax	(14,898)	(42,159)
Cash flow hedges reclassified to profit or loss on derecognition of an associate – net of related tax	-	(78,720)
Other movements	-	7,808
<b>At the end of the year</b>	<u><b>601,127</b></u>	<u><b>176,478</b></u>

## Qatar Electricity and Water Company Q.P.S.C.

### Notes to the consolidated financial statements As at and for the year ended 31 December 2024

In thousands of Qatari Riyals

#### 18. Hedge reserve (continued)

##### (a) Hedging reserves (continued)

(1) The share of other comprehensive income from equity-accounted investees were as follows:

	2024	2023
Stockyard Hill Wind Farm (Holding) Pty Ltd.	155,932	(7,295)
Umm Al Houl Power Q.P.S.C.	133,367	(62,649)
Ras Girtas Power Company Q.P.S.C.	123,974	(541,666)
Mesaieed Power Company Q.P.S.C.	49,493	10,548
Phoenix Operation and Maintenance Company L.L.C.	3,715	-
IPM Asia Pte Ltd.	14	(57)
AES Jordan Solar B.V.	4	116
Unique Meghnaghat Power Limited	(24,123)	-
Shams Maan Solar UK Limited	(2,005)	2,151

					<u>6,818,292</u>

\*Production facilities for RAF A1, RAF A2, RAF A3 and RAF B2 are pledged to the lenders to obtain the project finance loans.

\*\* In thousands of foreign currency

The loans and borrowings are classified in the consolidated statement of financial position as follows:

	2024	2023
Non-current portion	4,742,548	5,000,645
Current portion	<u>1,223,637</u>	<u>1,817,647</u>
	<u><b>5,966,185</b></u>	<u><b>6,818,292</b></u>

**22. Employees' end of service benefits**

	<b>2024</b>	2023
At the beginning of the year	92,266	87,628
Provision made during the year*	13,685	13,293
Payments made during the year	<u>(12,424)</u>	<u>(8,655)</u>
<b>At the end of the year</b>	<b><u>93,527</u></b>	<b><u>92,266</u></b>

\* The provision made for the year is included within staff costs in profit or loss (Note 26).

Management has classified the obligation within non-current liabilities in the consolidated statement of financial position as it does not expect that there will be significant payments towards its employees' end of service benefits obligation within 12 months from the reporting date. The provision is not discounted to present value as the effect of the time value of money is not expected to be significant.

**23. Trade and other payables**

	<b>2024</b>	2023
Trade payables	178,532	137,318
Accrued expenses	318,490	305,179
Provision for claim received from KAHRAMAA*	307,010	307,010
Dividend payable to shareholders	48,829	53,388
Social and sports support fund payable	47,203	60,922
Other payables	47,734	52,424
Provision for staff costs	<u>39</u>	<u>151</u>
	<b><u>947,837</u></b>	<b><u>916,392</u></b>

\* On 7 December 2020, the Company received a claim from KAHRAMAA for the reference non-escalable capacity price for RAF B1 for the period from August 2002 until October 2020, amounting to QAR 160.5 million. On 15 December 2020, the Company received an additional claim for the capacity charge paid in excess of technical limits up to December 2014 for the same plant, amounting to QAR 139.5 million. Accordingly, the Group has provided a provision for both claims. The parties are currently under discussion to resolve the matter as per the dispute resolution mechanism outlined in the PWPA.

**24. Revenue**

**(a) Revenue streams**

The Group generates revenue primarily from the production and sale of water and electricity as per the power and water purchase agreements with the off takers in and outside the State of Qatar.

	<b>2024</b>	2023
Revenue from electricity	1,572,321	1,495,093
Revenue from water	<u>1,345,583</u>	<u>1,341,173</u>
<b>Total revenue</b>	<b><u>2,917,904</u></b>	<b><u>2,836,266</u></b>

**Operating lease revenue – capacity charges (IFRS 16)**

	<b>2024</b>	2023
Electricity	659,541	651,144
Water	<u>1,109,192</u>	<u>1,108,247</u>
	<b><u>1,768,733</u></b>	<b><u>1,759,391</u></b>

**24. Revenue (continued)**

**(a) Revenue streams (continued)**

**Revenue from contracts with customers (IFRS 15)**

	<b>2024</b>	2023
Sale of electricity	912,780	843,949
Sale of water	236,391	232,926
	<u><b>1,149,171</b></u>	<u>1,076,875</u>

**(b) Disaggregation of revenue from contracts with customers**

In the following table, revenue from contracts with customers is disaggregated by primary geographical market and timing of revenue recognition.

	<b>2024</b>	2023
<b>Primary geographical markets</b>		
Qatar	1,018,900	929,690
Outside Qatar	130,271	147,185
	<u><b>1,149,171</b></u>	<u>1,076,875</u>
<b>Timing of revenue recognition</b>		
Point in time (i)	936,111	890,752
Over time (ii)	213,060	186,123
	<u><b>1,149,171</b></u>	<u>1,076,875</u>

- (i) Revenue from sale of electricity and water are recognised at point in time.
- (ii) Revenue recognized over the period includes revenue from operations and maintenance which is recognised over the period of time upon satisfaction of the services to the customer using an output method. The Group applied the practical expedient which allows the Group to recognise the revenue in the amount to which the entity has a right to invoice as this corresponds directly with the value to the customer of the entity's performance completed to date.

**25. Cost of sales**

	<b>2024</b>	2023
Cost of gas consumed	1,205,068	1,120,578
Depreciation on property, plant and equipment (Note 5 (c))	332,280	335,205
Staff costs	178,325	167,921
Spare parts, chemicals and consumables	86,298	70,171
Others	202,433	208,417
	<u><b>2,004,404</b></u>	<u>1,902,292</u>

**Qatar Electricity and Water Company Q.P.S.C.**

**Notes to the consolidated financial statements  
As at and for the year ended 31 December 2024**

**26. General and administrative expenses**

	<b>2024</b>	2023
Staff costs (1)	139,943	138,738
Insurance	11,443	10,287
Board of Directors' remuneration	11,750	17,875
Depreciation of property, plant and equipment (Note 5 (C))	3,205	2,075
Depreciation of right-of-use assets (Note 6(a))	10,778	10,376

Donations	1,000	1,000
Advertisement and public relation expenses	80	661
Miscellaneous expenses	21,050	18,669
	<b><u>257,804</u></b>	<b><u>285,200</u></b>

(1) Staff costs include a provision of QAR 13.7 million (2023: QAR 13.3 million) in respect of employees' end of service benefits (Note 22).

**27. Interest income**

	<b>2024</b>	2023
Interest earned on term and other call deposits	174,713	262,630
Interest income from related parties and others	61,988	49,276
	<b><u>236,701</u></b>	<b><u>311,906</u></b>

**28. Other income**

	<b>2024</b>	2023
Dividend income from equity investments at FVOCI (Note 9)	127,343	113,948
Secondment income	26,694	22,227
Miscellaneous income	77,977	147,028
	<b><u>232,014</u></b>	<b><u>283,203</u></b>

**29. Finance costs**

	<b>2024</b>	2023
Interest on bank loans	414,437	486,759
Interest – others	20,959	-
Interest on lease liabilities (Note 6(b))	1,947	13,709
Bank charges	6,826	6,834
	<b><u>444,169</u></b>	<b><u>507,302</u></b>

**30. Earnings per share**

**Basic earnings per share**

The calculation of basic earnings per share is arrived by dividing the profit attributable to the equity & ordinary shareholders of the Company for the year by the weighted average number of ordinary shares & outstanding during the year.

	<b>2024</b>	2023
Profit for the year attributable to owners of the Company	<b>1,416,044</b>	1,551,436
Weighted average number of ordinary and outstanding shares during the year (number of shares in thousands)	<b>1,100,000</b>	1,100,000
Basic and diluted earnings per share (expressed in QAR per share)	<b>1.29</b>	1.41

**Diluted earnings per share**

For the parent Company, it has no potential dilutive shares, the diluted EPS equals to the basic EPS. The diluted earnings per share (hereafter "EPS") is calculated by dividing the profit for the year attributable to the ordinary shareholders of the Company by the weighted-average number of shares outstanding during the year after adjustment for the effects of all / any dilutive potential ordinary shares. As the Company had no dilutive potential ordinary shares during the current year and the comparative year, the Diluted EPS is the same as the Basic EPS for both these years.

**31. Dividends**

The Board of Directors has proposed final cash dividend of QAR 583 million (QAR 0.53 per share), bringing the total dividend for the year ended 31 December 2024 to QAR 858 million (QAR 0.78 per share). The proposed final and interim dividend will be submitted for formal approval at the next Annual General Meeting of the Company. Therefore, the final cash dividend is not recognised as a liability as of 31 December 2024.

During the current and the previous year, the shareholders of the Company approved, and the Company paid cash dividend as follows:

- (i) Final dividend of QAR 0.86 per share totalling to QAR 946 million for the year 2023 (31 December 2023: final dividend of QAR 0.95 per share totalling to QAR 1,045 million for the year 2022).
- (ii) Interim dividend of QAR 0.25 per share totalling to QAR 275 million for the half-year ended 30 June 2024 (30 June 2023: Nil).

**32. Contributions to social and sports support fund**

In accordance with the provisions of the Qatar Commercial Companies' Law No. 13 of 2008, the Group contributed to the social and sports support fund QAR 32.2 million for the year ended 31 December 2024 (2023: QAR 35.9 million).

**33. Commitments and contingent liabilities**

	<b>2024</b>	2023
<b>(a) Contingent liabilities:</b>		
Corporate guarantees issued on behalf of equity-accounted investees	1,501,510	951,207
Letter of credits	184,447	331,089
	<b>1,685,957</b>	<b>1,282,296</b>

**33. Commitments and contingent liabilities (continued)**

**Other contingencies:**

Salgueiro Solar Holding S.A. (Brazil)

During 2022, the EPC contractor of the Salgueiro plants ("SNEF Brasil") had filed for an arbitration against the company claiming extra costs on account of force majeure, additional works and owner caused delays (QAR 35.3 million). Subsequently, the Group had filed their rejections along with a counterclaim of QAR 14.7 million with the Arbitral Tribunal on the grounds of breach of contract and indemnification for the losses incurred from SNEF Brasil's failure to properly execute and complete the work as per the agreed terms.

During the year, the Arbitral Tribunal rendered a partial award, and the Group is required to settle QAR 0.5 million to the EPC contractor (after setting off the counterclaims partially ruled in favour of the Company), for which the Group has recognized the provision as of the reporting date. The remaining claims and counterclaims have been deferred to the second stage of the proceedings and is yet to be scheduled.

	2024	2023
<b>(b) Commitments:</b>		
Facility E IWPP Project*	839,079	-
<i>Derivative financial instruments:</i>		
Interest rate swaps (notional amount)	1,058,321	537,787
	<u>1,897,400</u>	<u>537,787</u>

\* A new IWPP (independent water and power plant) project is being established to construct a natural gas-fired plant with capacity of 100 MIGD of desalination water and 2300 MW of power under the 'BOOT' model (Build, Own, Operate and Transfer). The Group has committed to own 55% interest in the project and has entered into an Early Stage Cooperation Agreement ("ESCA") with the other partners (Sumitomo Corporation and Qatar Energy). Pursuant to the arrangement, the Group has committed to contribute USD 239.9 million (through cash calls) towards the project development budget and as of the reporting date, the Group has already funded to the extent of USD 9.7 million equivalent to QAR 35.5 million and the remaining commitment exposure is USD 230.2 million equivalent to QAR 839.1 million.

**34. Related party disclosures**

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Group's management.

Transactions with related parties included in the condensed consolidated statement of profit or loss and comprehensive income are as follows:

### **35. Financial risk and capital management**

#### **a) Financial risk management**

The Group's principal financial liabilities, other than derivatives, comprise interest bearing loans and borrowings, lease liability, trade payables, accrued expenses and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets are bank balances and cash, finance lease receivable, loans receivable from related parties, trade receivables, accrued interest receivable and other receivables that derive directly from its operations. The Group also holds equity investments at fair value through other comprehensive income and enters into derivative transactions for hedging purposes. The Group's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

The Group is exposed to market risk, credit risk and liquidity risk and policies for managing each of these risks are summarized below.

#### ***Market risk***

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity price risk will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Group is exposed to currency risk to the extent that there is mismatch between the currencies in which revenue, related costs and borrowings are denominated and the respective functional currencies of the Group entities. The functional currencies of the Group entities are primarily those that are mentioned in Note 3(c). The Group does not use forward exchange contracts to hedge its currency risk. Generally, borrowings are denominated in currencies that match the cash flows generated by the underlying operations of the Group – primarily the USD. This provides an economic hedge without derivatives being entered into and therefore hedge accounting is not applied.

The Group uses derivatives to hedge its interest rate risk. All such transactions are carried out within the guidelines set by the Risk Management Committee. Generally, the Group seeks to apply hedge accounting to manage volatility in profit or loss.

#### ***Interest rate risk***

Interest rate risk arises when the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises mainly from interest bearing bank loans and borrowings issued at variable rates, which expose it cash flow interest rate risk.

The Group has entered into a floating to fixed interest rate swap ("IRS") for the 50% of the notional amount of its syndicated long-term revolving credit facility ("RCF") to mitigate its exposure to interest rate risk. Under the IRS terms, the Group pays fixed rate to the hedge counterparties and receive floating rate ("SOFR") from hedge counterparties for settlement of its floating rate interest liability under the RCF. IRS has been executed with highly rated financial institutions as hedge counterparties in order to segregate the counterparty risk. The Group's approach is to opportunistically hedge its interest rate risks to (i) manage the impact of these risks on the cash flows and profit and loss of the Company and (ii) ensure compliance with the Company's financial covenants whilst optimizing finance costs.

**35. Financial risk and capital management (continued)**

**a) Financial risk management (continued)**

**Market risk (continued)**

*Interest rate risk (continued)*

**Sensitivity**

The following table shows the sensitivity of the consolidated income statement to possible changes in interest rate by 25 basis points, with all other variables held constant. The sensitivity of the consolidated income statement is the effect of the assumed changes in interest rates for one year, on the floating rate borrowing held at 31 December.

	<b>Change in basis points</b>	<b>Effect on profit / total comprehensive income</b>	
		<b>2024</b>	<b>2023</b>
<b>Floating interest rate instruments (Interest bearing loans and borrowings)</b>			
USD denominated loans	+/- 25 bps	<b>+/- 10,332</b>	+/- 12,357
AUD denominated loans	+/- 25 bps	<b>+/- 2,109</b>	+/- 2,303
BRL denominated loans	+/- 25 bps	<b>+/- 1,621</b>	+/- 2,087
EUR denominated loans	+/- 25 bps	<b>+/- 853</b>	+/- 299

*Equity price risk*

All the Group's equity investments are listed on the Qatar Stock Exchange.

The following table demonstrates the sensitivity of the cumulative changes in fair value to reasonably possible changes in equity prices, with all other variables held constant. The effect of decreases in equity prices is expected to be equal and opposite to the effect of the increases shown.

	<b>Change in equity price</b>	<b>Effect on equity 2024</b>	<b>Effect on equity 2023</b>
Quoted shares	<u>+/- 100 bps</u>	<u><b>+/- 213,874</b></u>	<u>+/- 201,732</u>

*Currency risk*

The Group is exposed to transactional foreign currency risk to the extent that there is a mismatch between the currencies in which sales, purchases, receivables, payables and borrowings are denominated and the respective functional currencies of Group companies. The functional currencies of Group companies are disclosed in Note 3(c). The currencies in which these transactions are primarily denominated are Euro, USD and Brazilian Real.

*Exposure to currency risk*

The summary quantitative data about the Group's exposure to currency risk as reported to the management of the Group are as follows:

	<b>Foreign currency</b>	<b>Functional currency</b>	<b>2024</b>	<b>2023</b>
Bank balances	EUR	USD	8,151	11,251
Bank balances	GBP	USD	83,621	2,938
Loans receivable from related parties	GBP	USD	592,537	607,859
Loans and borrowings	EUR	Hryvnia	<u>(23,502)</u>	<u>(32,079)</u>
<b>Statement of financial position exposure- net</b>			<u><b>660,807</b></u>	<u><b>589,969</b></u>

**35. Financial risk and capital management (continued)**

**a) Financial risk management (continued)**

**Market risk (continued)**

*Currency risk (continued)*

The following significant exchange rates have been applied during the current and the comparative year:

	<b>Average rate</b>		<b>Year-end spot rate</b>	
	<b>2024</b>	2023	<b>2024</b>	2023
EUR – USD	<b>1.08</b>	1.08	<b>1.04</b>	1.10
EUR – Hryvnia	<b>42.57</b>	39.89	<b>40.75</b>	40.79
GBP – USD	<b>1.28</b>	1.24	<b>1.25</b>	1.27

*Sensitivity analysis*

A reasonably possibly strengthening (weakening) of the currencies against the others at the year-end would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profits or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	<b>2024</b>		<b>2023</b>	
	<b>Strengthening</b>	<b>Weakening</b>	Strengthening	Weakening
EUR - USD (+/- 100 bps)	<b>815</b>	<b>(815)</b>	1,125	(1,125)
EUR – Hryvnia (+/- 100 bps)	<b>(2,350)</b>	<b>2,350</b>	(3,208)	3,208
GBP - USD (+/- 100 bps )	<b>67,616</b>	<b>(67,616)</b>	61,080	(61,080)
	<b>66,081</b>	<b>(66,081)</b>	58,997	(58,997)

The Group did not have significant exposure to currency risk during the previous year, as its majority of receivables and payables balances were held in QAR and USD.

**Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from its customers. The Group's exposure to credit risk is influenced mainly by the individual characteristics of each counterparty. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. The Group's maximum exposure to credit risk as at the reporting date is the carrying amount of its financial assets, which are as follows

	<b>2024</b>	2023
Trade receivables	963,162	688,398
Bank balances	2,844,337	3,782,033
Finance lease receivables	594,805	764,888
Loans receivable from related parties	1,313,158	1,144,340
Accrued interest receivable	24,676	43,641
Receivables from related parties	83,647	41,450
Derivative assets	24,959	36,795
	<b>5,848,744</b>	<b>6,501,545</b>

**35. Financial risk and capital management (continued)****a) Financial risk management (continued)****Credit risk (continued)****Trade receivables**

The Group has Power and Water Purchase Agreements (PWPA) with government companies, and non-government companies (private corporate customers) to whom the electricity is sold in the open market.

At 31 December 2024, the exposure to credit risk for trade receivables by type of counterparty was as follows:

	2024		2023	
	Not credit-impaired	Credit impaired	Not credit-impaired	Credit impaired
Government companies (1)	960,478	-	675,701	-
Non-government companies (2)	12,628	-	16,462	-
<b>Gross carrying amount</b>	<b>973,106</b>	-	<b>692,163</b>	-
Less: loss allowance	(9,944)	-	(3,765)	-
<b>Net carrying amount</b>	<b>963,162</b>	-	<b>688,398</b>	-

At 31 December 2024, the carrying amount of the trade receivables from the Group's most significant customer (KAHRAMAA, a Qatar based government authority) amounted to QAR 938.8 million (2023: QAR 658.5 million).

**(1) Expected credit loss assessment for government companies**

The Group performs expected credit loss assessment at each reporting date using an allowance matrix to measure its expected credit losses. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions, and forecasts of future economic conditions. The Group's trade receivables from government companies arise mainly from KAHRAMAA (see note above) and, consequently, the Group has credit concentration risk. Management believes that the credit concentration is not of significant concern, because KAHRAMAA is a government-controlled entity with high financial credibility and has never defaulted in the past. Furthermore, the credit risk of KAHRAMAA is negligible as it is backed by unconditional guarantee from the State of Qatar. As a result, the expected credit loss is determined to be insignificant from KAHRAMAA.

On the remaining trade receivable balances from other government companies outside Qatar, the Group has determined that these customers have been transacting with the Group for over three years, and none of these government customers' balances have been written off or are credit-impaired at the reporting date, hence, the expected credit loss on these receivables is insignificant as of the reporting date.

**(2) Expected credit loss assessment for non-government companies**

The Group uses an allowance matrix to measure the expected credit losses from its non-government companies, which comprise of private corporate companies operating in a regulated market. Loss rates are based on actual credit loss experience over the past two to three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. The Group has determined that since these private corporate companies operate in a regulated market, there has been no history of default in the past. Further, the Group has determined that none of its non-government customers' balances have been written off or are credit impaired as at the reporting date. Therefore, the expected credit loss on these receivables from non-government companies is considered to be insignificant.

The Group doesn't require collateral in respect of its trade receivables from government and non-government companies.

**35. Financial risk and capital management (continued)**

**a) Financial risk management (continued)**

***Credit risk (continued)***

**Trade receivables (continued)**

At 31 December 2024, the exposure to credit risk for trade receivables by geographic region was as follows:

	<b>2024</b>	2023
Qatar	938,792	658,513
Brazil	11,557	16,359
Netherlands	1,070	1,718
Ukraine	11,743	11,808
	<u><b>963,162</b></u>	<u>688,398</u>

Set out below is the information about the credit risk exposure on the Group's trade receivables using an allowance matrix:

<u>31 December 2024</u>	<b>Weighted average loss rate</b>	<b>Gross carrying amount</b>	<b>Loss allowance</b>	<b>Credit-impaired</b>
Current (not past due)	0.00%	469,174	-	-
1-30 days past due	0.00%	207,819	-	-
31-60 days past due	0.00%	180,310	-	-

**Cash at bank and term deposits**

The Group held bank balances of QAR 2,844,337 thousand at 31 December 2024 (2023: QAR 3,782,033 thousand). Management considers that its cash at bank and term deposits have low credit risk based on external credit ratings of the counterparties, which are rated AA- to AA+, based on moody's ratings. Impairment on cash at bank and term deposits have been measured on a 12-month expected loss basis and reflects the short-term maturities of the exposures.

As at the reporting date, none of the bank balances were credit impaired. On the non-credit impaired balance, based on the expected credit loss (ECL) exercise performed by the management, the ECL was determined to be immaterial, therefore, no ECL on the cash and cash equivalents was recognised in these consolidated financial statements.

**Loans receivable from related parties, finance lease receivable and other receivables from related parties.**

Management has performed detailed analysis on receivables from related parties, including loans receivable, finance lease receivable and other receivables and has determined the ECL to be insignificant, hence, no ECL is recognized on these balances as of the reporting date.

**35. Financial risk and capital management (continued)**

**a) Financial risk management (continued)**

***Credit risk (continued)***

**Derivatives**

The derivatives are entered into with bank and financial institution counterparties, which are rated AA- to AA+, based on moody's ratings.

**Guarantees**

The Group's policy is to provide financial guarantees only for its affiliates' liabilities. At 31 December 2024 and 2023, the Company and one of its subsidiaries, Nebras Power Q.P.S.C. have issued guarantees to certain financial institutions in respect of credit facilities granted to their underlying affiliate companies. Please also refer note 33.

***Liquidity risk***

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The table below summarizes the contractual discounted maturities of the Group's financial liabilities at the reporting date.

	<b>Carrying amounts</b>	<b>Less than 1 year</b>	<b>1 – 5 years</b>	<b>More than 5 years</b>
<b>31 December 2024</b>				
Trade payables	178,532	178,532	-	-

**35. Financial risk and capital management (continued)****a) Financial risk management (continued)****Liquidity risk (continued)**

\*The Group has secured project finance loans that contain covenants. A future breach of covenants may require the Group to repay the loan earlier than indicated in the above table. The Group has developed a strong debt compliance framework to actively control and manage this risk.

**b) Capital management**

The primary objective of the Group's capital management is to ensure that it maintains a strong capital base and healthy capital ratios in order to support its business and to sustain future development of the business. The Group manages its capital structure and makes adjustments to it, in light of economic conditions. The Board of Directors monitors the return on capital. No changes were made in the objectives, policies or processes during the year ended 31 December 2024.

The Group monitors capital using a gearing ratio, which is calculated as net debt divided by total equity and net debt. The debt is calculated as total borrowings (including current and non-current loans as shown on the consolidated statement of financial position) less cash and cash equivalents.

Total equity is the equity attributable to owners of the Company.

	<b>2024</b>	2023
Loans and borrowings	5,966,185	6,861,512
Cash and bank balances	<u>(2,844,423)</u>	<u>(3,787,311)</u>
<b>Net debt</b>	<b>3,121,762</b>	3,074,201
Equity attributable to owners of the Company	<u>15,359,814</u>	<u>14,886,333</u>
<b>Total equity and net debt</b>	<b>18,481,576</b>	17,960,534
<b>Gearing ratio</b>	<b>16.9%</b>	17.1%

**36. Fair values of assets and liabilities**

Financial instruments represent any contractual agreement that creates a financial asset, financial liability or an equity instrument. The Group's principal financial liabilities comprise interest bearing loans and borrowings, bank overdrafts, accounts payable, amounts due to related parties and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's financial assets comprise bank balances and cash, trade receivable, investments through OCI, amounts due from related parties and certain other receivables that arise directly from its operation.

**Fair value measurements**

This note provides information about how the Group determines fair values of various financial assets and financial liabilities.

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined.

When measuring the fair value of an asset or liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted market price (unadjusted) in active markets for an identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs)

**36. Fair values of assets and liabilities (continued)**

**Fair value measurements (continued)**

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement

As at 31 December 2024, the Group held the following classes of financial instruments measured at fair value:

Derivative and non-derivative financial assets / (financial liabilities)	Classification	As at 31 December 2024		Fair value Hierarchy
		Carrying value	Fair value	
Cash and bank balances*	Amortised cost	2,844,423	-	-
Trade and other receivables*	Amortised cost	1,145,036	-	-
Financial assets at fair value through OCI	FVOCI	2,138,739	2,138,739	Level 1
Loans receivable from a related parties	Amortised cost	1,313,158	-	-
Derivative assets	FVOCI	24,959	24,959	Level 2
Disposal group held-for-distribution	Fair value less costs to sell	65,861	65,861	Level 3
Liabilities held-for-distribution	Other financial liabilities	(58,332)	(58,332)	Level 3
Loans and borrowings	Other financial liabilities	(5,966,185)	(5,966,185)	Level 2
Derivative liabilities	Other financial liabilities	(3,063)	(3,063)	Level 2
Lease liabilities*	Other financial liabilities	(43,546)	-	-
Accounts payable and accruals* (excluding derivative financial liabilities)	Other financial liabilities	(947,837)	-	-
Derivative and non-derivative financial assets / (financial liabilities)	Classification	As at 31 December 2023		Fair value Hierarchy
		Carrying value	Fair value	
Cash and bank balances*	Amortised cost	3,787,311	-	-
Trade and other receivables*	Amortised cost	856,257	-	-
Financial assets at fair value through OCI	FVOCI	2,017,318	2,017,318	Level 1
Loans receivable from related parties	Amortised cost	1,144,340	-	-
Derivative assets	FVOCI	36,795	36,795	Level 2
Disposal group held-for-distribution	Fair value less costs to sell	186,385	186,385	Level 3
Liabilities held-for-distribution	Other financial liabilities	(168,650)	(168,650)	Level 3
Loans and borrowings	Other financial liabilities	(6,818,292)	(6,818,292)	Level 2
Lease liabilities*	Other financial liabilities	(55,817)	-	-
Accounts payable and accruals* (excluding derivative financial liabilities)	Other financial liabilities	(916,392)	-	-

\*These financial assets and financial liabilities are carried at amortised cost. The fair values of these financial assets and financial liabilities are not materially different from their carrying values in the consolidated statement of financial position, as these assets and liabilities are either of short-term maturities or are re-priced frequently based on market movement in interest rates.

There is no in or out movement from Level 3 fair value measurements. The assets and liabilities classified under Level 3 category have been fair-valued based on the available information.

**36. Fair values of assets and liabilities (continued)****Fair value measurements (continued)****Valuation techniques**

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. The fair value of derivative instruments is calculated as the present value of the estimated future cash flows. Estimates of future floating-rate cash flows are based on quoted swap rates, futures prices and interbank borrowing rates. Estimated cash flows are discounted using a yield curve constructed from similar sources and which reflects the relevant benchmark interbank rate used by market participants for this purpose when pricing interest rate swaps. The fair value estimate is subject to a credit risk adjustment that reflects the credit risk of the Group and of the counterparty, this is calculated based on credit spreads derived from current credit default swap or bond prices.

**Fair value sensitivity analysis**

The following table shows the sensitivity of fair values to 10% increase / decrease as at 31 December:

	<b>2024</b>	2023
Basis points	+/-1,000	+/-1,000
Effect on profit or loss (QAR '000)	<b>+/- 6,586</b>	+/-18,639

**Offsetting financial assets and liabilities**

The Group does not have any financial assets or financial liabilities that are subject to offsetting, enforceable master netting arrangements or any similar agreements.

**37. Disposal group held-for-distribution**

Carthage Power Company ("CPC"), one of the subsidiaries of the Group is classified as Disposal group held-for-distribution in accordance with the requirements of IFRS 5 - 'Non-current assets held-for-sale and discontinued operations' as it ceased its ability to continue as a going concern when the concession agreement came to an end in May 2022. Accordingly, the assets and liabilities of the subsidiary are presented as a disposal group held-for-distribution and the results of the subsidiary are shown as discontinued operations in the condensed consolidated statement of profit or loss and other comprehensive income. The Group holds 60% interests in the said subsidiary.

Information regarding the assets, liabilities and results of the subsidiary are presented below;

**i) Assets and liabilities of disposal group held-for-distribution**

	<b>2024</b>	2023
Trade and other receivables	60,501	177,107
Cash and bank balances	5,190	9,272
Others	170	6
<b>Assets held-for-distribution</b>	<b><u>65,861</u></b>	<b><u>186,385</u></b>
Trade and other payables	58,226	168,650
Others	106	-
<b>Liabilities held-for-distribution</b>	<b><u>58,332</u></b>	<b><u>168,650</u></b>

**37. Disposal group held-for-distribution (continued)**

**ii) Cash flows from discontinued operations**

	<b>2024</b>	<b>2023</b>
Cash used in operating activities	(2,988)	(873)
Net change in cash and cash equivalents	(2,988)	(873)
Cash and cash equivalents at the beginning of the year	9,272	11,217
Effect of movements in exchange rates on cash held	(1,094)	(1,072)
Cash and cash equivalents at the end of the year	<b>5,190</b>	<b>9,272</b>

The loss from the discontinued operations generated during the year amounted to QAR 631 thousand (31 December 2023: QAR 7,156 thousand), out of which QAR 379 thousand is attributed to the owners of the Company (31 December 2023: QAR 4,294 thousand) and QAR 252 thousand is attributed to the non-controlling interests (31 December 2023: QAR 2,862 thousand).

**38. Operating segments**

**a) Basis for segmentation**

Operating Segments align with internal management reporting to the Group's chief operating decision makers. The Group manages its operations in two segments, Operations in Qatar and Operations outside Qatar. These segments offer the same products (Power) but they are managed separately.

Operations in Qatar	Stable business environment and caters to the needs of the off-taker in the State.
Operations outside Qatar	Focus on the expansion of the Group's presence in the global energy markets.

The Group's Managing director reviews the internal management reports of each division on a monthly basis.

**b) Information about reportable segments**

Information related to each reportable segment is set out below. Segment profit / (loss) for the period is used to measure performance because management believed that this information is the most relevant in evaluating the results of the respective segments relative to other entities that operate in the same business.

Information related to each reportable segment as of the reporting date is set out below:

	<b>Operations in Qatar</b>	<b>Operations outside Qatar</b>	<b>Consolidated financial statements</b>
<b>For the year ended 31 December 2024</b>			
External revenue	2,868,230	130,271	2,998,501
Inter-segment revenue	119,335	-	119,335
<b>Segment revenue</b>	<b>2,987,565</b>	<b>130,271</b>	<b>3,117,836</b>

c) Geographic information

The Group's operations in Qatar constitutes to 96% (2023: 95%) of consolidated revenue and 84% (2023: 85%) of the consolidated profits for the period, and 66% (2023: 58%) of the consolidated total assets as of the reporting period. Outside Qatar, the Group has operations through its controlled subsidiaries in Brazil, Netherlands, Australia and Ukraine, United Kingdom, Bangladesh and through its associates and joint ventures in Indonesia, Australia, Oman and other geographies.

d) Major customers

In the state of Qatar, the Group produces power and water as per the Power and Water Purchase Agreement (PWPA) with the Off taker (KAHRAMAA). Outside Qatar, the Group has similar agreements with the local government authorities, and also sale electricity in the open market to private corporate customers.

**39. Comparative information**

The comparative figures have been reclassified, where necessary, in order to conform to the current year's presentation. Such reclassifications did not affect the previously reported net profit, net assets or net equity of the Group.

**40. Subsequent events**

There were no material subsequent events after the reporting date, which have bearing on the understanding of these consolidated financial statements.
