# Independent auditors' report on review of condensed consolidated interim financial information

**To the Shareholders of Nebras Energy Q.P.S.C.**

## Introduction

We have reviewed the accompanying 30 June 2026 condensed consolidated interim financial information of Nebras Energy Q.P.S.C. (the "Company") and its subsidiaries (together the "Group") which comprises:

- the condensed consolidated statement of financial position as at 30 June 2026;
- the condensed consolidated statement of profit or loss and other comprehensive income for the three-month and six-month periods ended 30 June 2026;
- the condensed consolidated interim statement of changes in equity for the six-month period ended 30 June 2026;
- the condensed consolidated interim statement of cash flows for the six-month period ended 30 June 2026; and
- notes to the condensed consolidated interim financial information.

The Board of Directors of the Company is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

## Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Notes to the condensed consolidated interim financial information  
As at and for the six-month period ended 30 June 2026**

---

**2. Basis of preparation (continued)**

These condensed consolidated interim financial information do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025. In addition, the results for the six-month period ended 30 June 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

These condensed consolidated interim financial information was authorised for issue by the Board of Directors on 2 August 2026.

**3. Material accounting policies**

The accounting policies adopted in the preparation of these condensed consolidated interim financial information is consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025.

**New IFRS Accounting Standards and amendments adopted by the Group**

The following amended IFRS Accounting Standards applied for the annual reporting period beginning on 1 January 2026 had no significant impact on the condensed consolidated interim financial information of the Group.

| Effective date | New accounting standards or amendments                                                                                                                                                                                                                                                                            |

**New IFRS Accounting Standards and amendments not yet effective, but are available for early adoption**

A number of new accounting standards and amendments to accounting standards are effective for annual reporting periods beginning after 1 January 2026 and earlier application is permitted. However, the Group has not early adopted any of the forthcoming new or amended accounting standards in preparing the condensed consolidated interim financial information. The management of the Group is in the process of assessing the impact of these new standards, interpretation and amendments which will be adopted in the Group's financial statement as and when they are applicable.

**IFRS 18 Presentation and Disclosure in Financial Statements**

IFRS 18 Presentation and Disclosure in Financial Statements will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The Group has not early adopted the new accounting standard in preparing these interim financial statements, however earlier application is permitted.

IFRS 18 requires a more structured statement of profit and loss and greater disaggregation of information. The Group is in the process of assessing the estimated impact that the initial application of IFRS 18 will have on its consolidated financial statements.

**3. Material accounting policies (continued)**
**New IFRS Accounting Standards and amendments not yet effective, but are available for early adoption (continued)**
**IFRS 18 Presentation and Disclosure in Financial Statements (continued)**
**(a) Structure of the statement of profit and loss**

IFRS 18 requires entities to classify all income and expenses into five categories in the statement of profit and loss – namely operating, investing, financing, income tax and discontinued operations. Classification of income and expenses depends on the main business activities of an entity. The group will be required to present two newly defined subtotals, which are 'operating profit' and 'profit or loss before financing and income taxes'.

**(b) Management-defined performance measures**

Management-defined performance measures (MPMs) are subtotals of income and expenses used in public communications outside the financial statements that communicate to users' management's view of an aspect of the financial performance of the entity as a whole. The Group will be required to disclose specific information about MPMs in a single note in the financial statements. The Group has developed a process to determine public communication relevant when identifying MPMs. MPMs relate to the same reporting period as the financial statements. Therefore, MPMs disclosed by the Group following adoption of IFRS 18 will be determined based on public communication issued by the Group relating to the 2027 interim reporting period.

**(c) Principle of aggregation and disaggregation**

IFRS 18 provides enhanced principles on how to group information in financial statements (i.e. the primary financial statements and the notes). It also introduces guidance on labelling and describing items presented in the primary financial statements or disclosed in the notes. The Group is assessing the grouping of items on the basis of similar and dissimilar characteristics. Based on this assessment, it will present line items in the primary financial statements that provide useful structured summaries and disclose additional material information in the notes. The Group is assessing line items currently labelled as 'other' and will use more informative labels.

**(d) Consequential amendments**

IFRS 18 introduces consequential amendments to IAS7, which require entities to use the newly defined operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method. The Group currently uses 'profit or loss' as the starting point on the reconciliation to cash flows from operating activities. Certain adjusting items included in the reconciliation will change as a result of the new starting point.

**Other IFRS Accounting Standards**

The adoption of following other new and amended IFRS Accounting Standards are not expected to have a significant impact on the Group's condensed consolidated interim financial information.

| <b>Effective date</b>                                                  | <b>New accounting standards or amendments</b>                                                                                                                              |

**9. Finance lease receivables**

Present value of minimum lease receivable is the gross lease receivable in the lease discounted at the interest rate implicit in the lease. The implicit interest rate is 9.32% per annum (2025: 9.32% per annum). Income from finance leases is recognised based on a pattern reflecting a constant periodic rate of return on the Group's net investment in the finance lease. The finance lease receivables at the end of the reporting period were neither past due nor impaired.

- (i) Cash held in current bank accounts earns no interest.
- (ii) Term deposits are made for varying terms depending on the immediate cash requirements of the Group and earn interest at market rates. The original maturity of certain term deposits is more than 90 days. However, these deposits are highly liquid investments and are readily convertible to known amounts of cash with insignificant risk of changes in value and with no significant penalties, hence classified as cash and cash equivalents.

- (i) Revenue from sale of electricity and water is recognised at point in time.
- (ii) Revenue recognized over the period includes revenue from operations and maintenance which is recognised over the period of time upon satisfaction of the services to the customer using an output method. The Group applied the practical expedient which allows the Group to recognise the revenue in the amount to which the entity has a right to invoice as this corresponds directly with the value to the customer of the entity's performance completed to date.

(i) The Group is subject to the global minimum top-up tax under Pillar Two (II) tax legislation. The top-up tax relates to the Group's operations in the State of Qatar. Qatar has enacted the OECD Pillar II framework into domestic law through Law No. 22 of 2024, which amends the Income Tax Law No. 24 of 2018. The law was published in the Official Gazette on 27 March 2025 and applies to fiscal periods beginning on or after 1 January 2025. Under this legislation, Qatar has implemented two Pillar II mechanisms: (i) the Income Inclusion Rule (IIR), which requires a Qatari Ultimate Parent Entity to pay a top up tax in respect of low taxed foreign constituent entities; and (ii) a Domestic Minimum Top Up Tax (DMTT), which ensures that profits generated in Qatar are subject to a minimum effective tax rate of 15%, thereby preventing the reallocation of taxing rights to other jurisdictions.

Under Pillar II legislation, the Group is required to pay a top up tax equal to the difference between the effective tax rate applicable in each jurisdiction and the minimum rate of 15%. After considering the specific adjustments prescribed by the Pillar II rules, the Group recognised a current tax expense of QAR 17,200 thousand related to the top-up tax for the six-month period ended 30 June 2026 (six-month period ended 30 June 2025: QAR 9,224 thousand). This amount is included within income tax expense in the condensed consolidated interim statement of profit or loss.

The Group has applied a temporary mandatory relief from the deferred tax accounting for the impacts of the top-up tax and accounts for it as a current tax when it is incurred.

**19. Earnings per share**

The calculation of basic earnings per share has arrived by dividing the profit attributable to the equity and ordinary shareholders of the Company for the period by the weighted average number of ordinary shares and outstanding during the period.

|--------------------------|-----------------------------------------------------------------------------------------------|
| Operations in Qatar      | Stable business environment and caters to the needs of the off-taker (KAHRAMAA) in the State. |
| Operations outside Qatar | Focus on the expansion of the Group's presence in the global energy markets.                  |

The Group's Chief Executive Officer reviews the internal management reports of each division on a monthly basis.

**(b) Information about reportable segments**

Information related to each reportable segment is set out below. Segment profit / (loss) for the period is used to measure performance because management believed that this information is the most relevant in evaluating the results of the respective segments relative to other entities that operate in the same business.

**Other contingencies:**

Salgueiro Solar Holding S.A. (Brazil)

During 2022, the EPC contractor of the Salgueiro plants ("SNEF Brasil") had filed for an arbitration against the company claiming extra costs on account of force majeure, additional works and owner caused delays (QAR 35.3 million). Subsequently, the Group had filed their rejections along with a counterclaim of QAR 14.7 million with the Arbitral Tribunal on the grounds of breach of contract and indemnification for the losses incurred from SNEF Brasil's failure to properly execute and complete the work as per the agreed terms.

During 2024, the Arbitral Tribunal had rendered a partial award, and the Group settled QAR 0.5 million to the EPC contractor (after setting off the counterclaims partially ruled in favour of the Company). The remaining claims and counterclaims have been deferred to the second stage of the proceedings which is evidence phase and hearing occurred until February 2026. A final ward is expected to be issued within 2026.

During the reporting period/year ended 30 June 2026 and 31 December 2025, there were no transfers between Level 1, Level 2, and Level 3 fair value measurements.

When measuring the fair value of an asset or liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted market price (unadjusted) in active markets for an identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**Valuation techniques**

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. The fair value of derivative instruments is calculated as the present value of the estimated future cash flows. Estimates of future floating-rate cash flows are based on quoted swap rates, futures prices and interbank borrowing rates. Estimated cash flows are discounted using a yield curve constructed from similar sources and which reflects the relevant benchmark interbank rate used by market participants for this purpose when pricing interest rate swaps. The fair value estimate is subject to a credit risk adjustment that reflects the credit risk of the Group and of the counterparty, this is calculated based on credit spreads derived from current credit default swap or bond prices.

**As at and for the six-month period ended 30 June 2026**

**24. Disposal group held-for-distribution**

Carthage Power Company ("CPC"), one of the subsidiaries of the Group is classified as Disposal group held-for-distribution in accordance with the requirements of IFRS 5 - 'Non-current assets held-for-sale and discontinued operations' as it ceased its ability to continue as a going concern when the concession agreement came to an end in May 2022. Accordingly, the assets and liabilities of the subsidiary are presented as a disposal group held-for-distribution and the results of the subsidiary are shown as discontinued operations in the condensed consolidated statement of profit or loss and other comprehensive income. The Group holds 60% interest in the said subsidiary.

Information regarding the assets, liabilities and results of the disposal group are presented below;

**25. Comparative figures**

The corresponding figures presented for 2025 have been reclassified where necessary to preserve consistency with the 2026 figures. However, such reclassifications did not have any effect on the comprehensive income or the total equity for the comparative period.

**26. Geopolitical developments in the region**

During the period ended 30 June 2026, geopolitical tensions in the Middle East have escalated, resulting in heightened instability and uncertainty in the region. Given that these conditions existed and continued to evolve during the reporting period, the Group has reassessed the significant estimates and judgements applied in the preparation of these condensed consolidated interim financial information and no significant adjustments were required to be made for the period ended 30 June 2026.

However, given the evolving nature of the situation, the extent of the financial impact remains subject to significant uncertainty and is dependent on future developments, including the duration and severity of the conflict and its broader economic consequences and management continues to monitor the situation closely.

**27. Subsequent events**

There were no material events subsequent to the reporting date, which have a bearing on the understanding of these condensed consolidated interim financial information.
